## GIRL TAKES BIG POISON DRAUGHT

**Young Bookkeeper Victim of Bichloride of Mercury**  
**Police Investigate Case Which Was Tardily Reported**

Suffering from an overdose of bichloride of mercury, Miss Barbara C. Braun, a pretty bookkeeper, 21 years of age, lies at her home, 1215 Filbert street, near death, while the police are investigating a case which her physician declares to be an extremely grave one and which her family states was an accident.

Although the girl was taken ill at 9 o'clock Wednesday evening, the matter was not reported to the police by the physician, Dr. M. M. Knox, until late yesterday afternoon. Dr. S. H. Buten was also working on the case. The girl, it is admitted, received a telephone call just before she went upstairs, to come down, suffering from the effects of the poison. She refused to state who telephoned. The police are seeking traces of any love affair that the girl may have had, in the hope of thus throwing light on the matter.

**RECEIVED PHONE CALL.**  
The girl, according to members of the family, received a telephone call from some one shortly before 9 o'clock on the night of the poisoning. Immediately afterward, they say, she complained of a headache and retired. A little later she returned, declaring that she had taken poison and was suffering. The physicians were called. Dr. Ackerman, called when the girl first took the poison, has retired from the case. Two trained nurses, both friends of the family, are watching the patient day and night. While still seriously ill, it is declared that she may recover.

**WORKING TO SAVE LIFE.**  
Although a city ordinance provides that such cases must be reported to the police immediately, Dr. Knox delayed his report more than twelve hours.

"I was the busy to report it before," she declared, "for I was exerting all my efforts to save the girl's life, and still am in doubt as to the result."

Dr. Knox declares that she does not know the reason of the girl's act. Members of the family declare it as their belief that she took the poison by mistake, thinking it headache medicine. A large quantity of the drug was taken.

The girl was a student in the Oakland High School in 1908. She has been employed by a local firm for some time past.

A peculiar feature of the case is the disappearance of the poison. Dr. Knox asked for it, examined it and placed it on a table. While she was busy, some one took it, and it has not been found. The police regard it as evidence and are searching for it.

## FIEND KILLS FOUR

**Axe-Wielding Assassin Murders Women and Three Children.**

**LITTLE ROCK, April 2.**—An unidentified assassin murdered with an axe early today Mrs. Elihu Francis and three of her children in their home near Fendley, having previously set fire to the house, according to reports received here. Francis, the husband and father, and a fourth child narrowly escaped the same fate.

According to statements made by Francis he was awakened about 4:30 o'clock this morning by the barking of his dog and found his home in flames. About this time, Francis said, he saw a man enter his wife's room, carrying an axe. Believing the intruder was searching for him, Francis said he ran into the yard in an effort to draw the man away from the house, but the slayer remained and killed Mrs. Francis and the three children, ranging in age from 2 to 6 years.

Francis stated he then ran to the house and the assassin disappeared. The flames by this time had completely enveloped the house and he was unable to enter the room where lay the bodies of his wife and children. He succeeded in baby from another room.

Great excitement has been aroused in the vicinity of Fendley by the crime. Doubtless have been sent from this

## LOST, IS BELIEF

**Steamer Is Believed to Have Gone Down in Blizzard**  
**English Government Institutes Search for the Southern Cross**

**ST. JOHNS, N. F., April 3.**—There was growing apprehension today that the sealing steamer Southern Cross went down with all on board, during the blizzard off Cape Race Tuesday. She carried a crew of 170 men and was heavily loaded with 1000 seal skins, trophies of a hunt recently concluded in the Gulf of St. Lawrence.

Hopes for the safety of the vessel, based on a dispatch from Sydney, N. S. W., which stated that a wireless message had been received there reporting the arrival of the Southern Cross, was dissipated before noon when the government, after several hours' inquiry, declared the Sydney report untrue.

The government has instituted an extended search for the missing vessel and appealed to the United States for assistance.

The Newfoundland company's steamer Kyla, which has a good wireless equipment, was chartered for the purpose and will sail at midnight. The American revenue cutter Seneca, which is doing icebergs patrol duty several hundred miles off the southern coast, was asked to assist.

**PICK UP BODIES.**  
The sealer Belleventure, with her cargo of dead, is blocked in the ice 100 miles north of here and cannot arrive before Sunday. She went to the aid of her sister sealer, the New Foundland, when 120 hunters from the latter were caught by the storm while catching seals last Tuesday and were unable to return.

The Belleventure, the Stephens and Florizel picked up many bodies and a number of survivors. It is known that 35 lives were lost and some 50 men are not accounted for. It is believed that it is scarcely possible that the latter could survive the long exposure on the ice floes.

A message received here late today from the captain of the Belleventure says that the total dead of the crew of the Newfoundland is 77. One hundred and twelve were rescued and the thirty-six are ill. The message from the captain follows:

"Just reached steamer Newfoundland and checked figures by her roster. First she had 187 total crew. Of these 112 are safe but 25 are on the sick list. Total dead 77, of which 58 bodies recovered. Remaining eight lost amid ice."

"Am leaving to proceed to St. Johns. Fear slow progress, as ice heavy and light. Stephens, alongside Newfoundland, will report names of dead."

**FEAR FOR SAFETY.**  
**NEW YORK, April 3.**—A private message received today said that the sealer Southern Cross had not arrived at Chappel, N. E., as reported from St. Johns, and grave fears were expressed for the vessel's safety.

## Will of Slain Preacher Gives Estate to Kin

The will of the late Frederick F. Altschwerer, who was violently murdered on a duck ranch at Stanley Road and Grant avenue, Elmhurst, on March 18, was filed for probate in the Superior Court today. The will bequeaths an estate valued at \$19,000 to Johannes and Johanna Altschwerer, who reside in Germany. His nephew, Hans, who was assaulted by the murderer and who freed himself from bonds after several hours' work to release his uncle, was not mentioned in the will, which bore the date of August 7, 1907. Max W. Pooner was named as executor.

Search is now being made by the police for the murderer, who fled from the scene of his crime, after robbing the house where his victim lay.

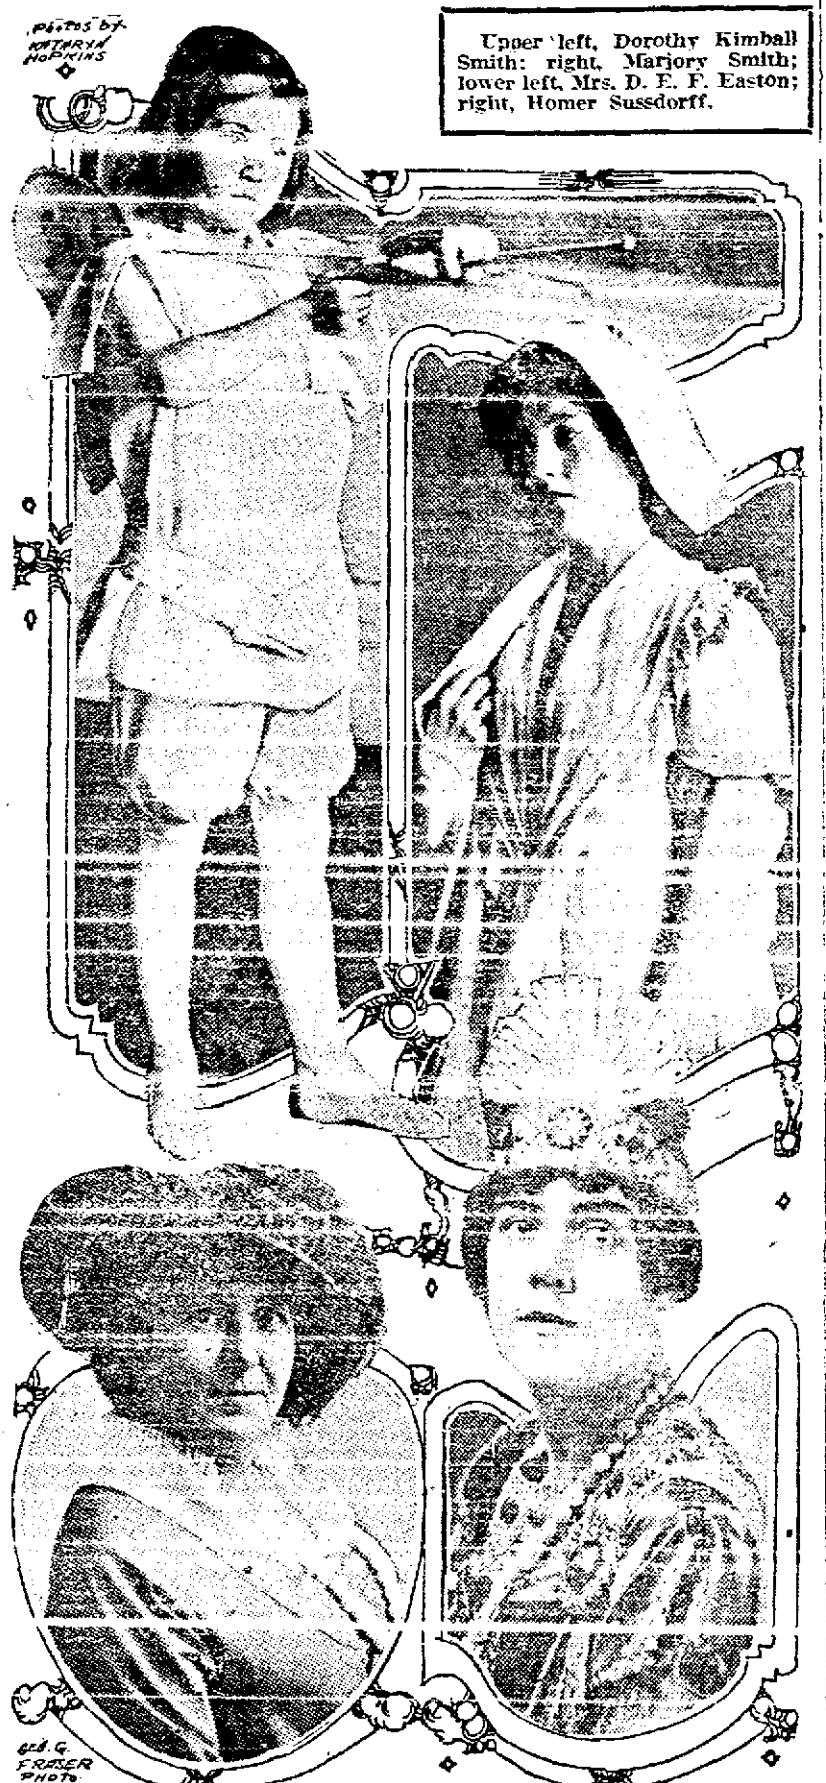

Two hours after the assault.

## Rusnak Indicted on Wife-Murder Charge

**SAN FRANCISCO, April 3.**—The grand jury this morning returned an indictment charging Victor Rusnak with the murder of his wife, Luba, who was captured with the aid of witnesses by Captain Reider of the steamer Wilamette, upon which she had been stowed away. He was jealous of his wife and shot her in her home at Fifth and Mission streets.

## Tolls Debate Is Shelved for Contest Over Senatorship

**WASHINGTON, April 3.**—The tolls controversy and other legislative questions were shelved temporarily by the Senate again today to resume the contest over the confirmation of Winthrop M. Daniels, of New Jersey, intimate friend of President Wilson, nominated for interstate commerce commissioner.

## LAST HONORS PAID REMAIN MEMBERS

**Mrs. Grace G. Stratton, Prominent and Gifted Vocalist, Laid to Rest.**

The funeral of Mrs. Grace Gregory Stratton, wife of former Collector of the Port of San Francisco, Frederick S. Stratton, was held this morning from the family residence, 1477 Harrison street. The obsequies were conducted by Rev. Ray Frederic Carter, assistant pastor of the First Congregational Church of this city. In accordance with the wishes of the decedent the service were simple and were attended by members of the immediate family.

**NUMEROUS TRIBUTES.**  
Numerous floral tributes were sent to the home of the late Mrs. Stratton, which were held by her legions of friends here, where she made her home for the past fifteen years. Her death yesterday morning came as a shock to this community and since the news of her demise was announced, messages of consolation have been received from all parts of the State.

In the musical circles of the bay region as well as in New York City, the decedent was held in high esteem and much admired because of her personal attainments and her charming personality.

**First Presbyterian Church Minority Hears Report of Controversy.**

The following is submitted by members of the minority of the First Presbyterian Church for publication:

A meeting of the so-called minority of the First Presbyterian Church was held at the home of the Rev. M. C. A. last evening and report was heard of the recent meeting of Presbytery. This report differed somewhat from the account heretofore published in that it supplied some of the "missing links" and was substantially as follows:

The moderator of the presbytery presided, thereby giving an illustration of sitting on his own case. If any of you should question the propriety of such proceedings it is only because you were not present. Had you been there you would have thought it the perfectly natural course to pursue. It was so in keeping with the whole situation.

**COMMITTEE REPORTS.**  
The first business was the presentation of the report of the committee appointed by the last presbytery. This was read by its chairman, Rev. George G. Edridge, D. D. He first read the statement adopted by the last meeting.

## DELIRIOUS STATE

**Oakland Woman, Fleeing Sanitarium, Is Found in S. F.**  
**Mrs. W. J. Kelly Staggers Into Police Station; Memory Gone**

Presumed to be in a hospital, but declared to have been during that time working as a domestic in San Francisco, Mrs. W. J. Kelly, wife of the house superintendent of the Oakland Orphanum, last night wandered in a delirious condition into the park police station and collapsed. She was rushed to the emergency hospital and today was identified by her husband and also by her employer as a missing person.

Mrs. Kelly's appearance in the police station was a surprise to the police. She had been in the hospital, but had been discharged, and was found by the police in the park.

Mrs. Kelly was well known in Oakland before she was taken ill. Several months ago, she was the mother of Violet Kelly, a child who died of diphtheria. Mrs. Kelly was also employed by M. L. Frank of the firm of Frank Bros., who employed her for two months at his home, 128 Hugo street.

"I only knew her as Violet," said Frank, "she has been the best servant we ever had. Yesterday afternoon she complained of a headache and at 7:30 last night my wife advised her to take a walk. We did not know of her disappearance until I found no breakfast waiting for me this morning until I described a paper and recognized the description by the initials on the envelope. She never told us her name, but my wife has heard her speak of living in Oakland."

When Frank stepped into the woman's ward the young woman looked at him with a blank expression and very evidently did not recognize him.

**Put Oakland Harbor On Geodetic Charts**  
Inclusion of the Key Route basin harbor development, Oakland estuary quay wall, Livingston street pier and estuary channel as it now is, in the charts of the United Coast and Geodetic survey has been made for the first time in a chart just issued.

These charts are used by mariners the world over, and heretofore Oakland harbor improvements have not been mapped and charted, with docks and wharves, channel depth, the charts of the U. S. Coast and Geodetic survey. The demand for these charts comes from every nation on the globe, and it is a great advantage to have the harbor facilities of Oakland placed on the charts.

The inclusion of the recent improvements in the charts was made at the instance of Commissioner of Public Works Harry S. Anderson, and the soundings, dimensions and other features were supplied by Harbor Engineer T. E. Riley.

## Contracts Signed for Two New Submarines

The navy has signed contracts for two submarines for the navy. They are to be known as the L-9 and L-10 and are to be delivered by the government at the Boston navy yard in 24 and 25 months respectively.

## COWBOY HANGED FOR SLAYING OF BANK CASHIER

**SAN QUENTIN, Cal., April 3.**—"Thomas Green" was hanged here today for the murder of Willis A. Bowles, cashier of the First State Bank at Blythe, Cal.

Green is not the man's true name, which he obstinately refused to give. He and a partner, both cowboys, tried to hold up the bank and ran off. The cashier bolted from a rear door of the bank and Green shot him as he ran. He exonerated his partner from any share in the murder.

## THUGS HOLD UP TRIO IN GARAGE

**Two of Victims Drive in at Time and Are Victimized**

Two thugs held up three men in the Atlas Garage, 2840 Broadway, early this morning and robbed them of money. John Fay and N. McKean had driven into the garage with an automobile just as the robbers had entered the place and were among the victims. Peter Ingelbrethson, one of the proprietors of the place, was in the garage at the time, but succeeded in persuading the hold-up men that the nickel plated watch he carried was not sufficiently valuable to form a part of the loot.

The two men entered the place shortly after midnight and while one remained at the entrance the other went to the rear of the garage where he held up Ingelbrethson and engaged him in conversation. While the two were talking Fay and McKean drove into the garage with their machine. The robber immediately took advantage of the situation and leveling his revolver at the two men in the automobile, ordered them to remain silent and hand over their money and valuables. Fay gave the bandit a purse containing \$7.95. McKean had no money with him but carried a watch and after some parley he persuaded the robber not to take this.

After ordering his victims to make no outcry the robber joined his accomplice at the entrance to the garage and the two made their escape. The police were notified and a search was made of the neighborhood.

Inspectors McSorley and Wood are working on the case. O. Johnson, who is one of the proprietors of the garage, was also notified and assisted in the search.

## Prize Fighter Dies; Collapsed in Ring

**ATLANTA, Ga., April 2.**—James Grant, bantam weight boxer who had been unconscious since he collapsed Tuesday night at the end of a ten-round bout here with John Egan of New York, died early today. Physicians said pneumonia caused his death and that a minute examination showed no marks of serious punishment. Egan, at liberty on bond, has been charged only with conduct.

## Testifies at Freight Rate Investigation

**WASHINGTON, April 3.**—W. C. Mack, of the United Fruit company, testified at the hearing before the Interstate Commerce Commission today on the proposed increase in freight rates, declaring that a 5 per cent advance would only afford partial relief to the carriers and save the situation for a time.

## Revenue Reduction Estimate Is Correct

**WASHINGTON, April 3.**—The Underwood-Simons tariff act went into effect six months ago today and present indications are that it will not reduce customs revenue any more than was estimated in Congress at the time of passage.

According to the treasury's March statement, customs revenues amounted to about \$200,000,000 in 1913 and are less than the Payne-Adams law produced in March, 1913.

## ROBINSON RETICENT LAST HONORS PAID

Civil Service Head Expects Plan for Park Department to Be Agreed Upon.

Harrison S. Robinson, president of the civil service board, is exceedingly reticent as to the controversy between the civil service board and the directors of the park department over the proposed reorganization of the park department.

"There are three ways in the park department which I have the highest respect," declared Robinson today. "I have no doubt that with their assistance we will perfect a plan of reorganization that will be right in theory and practice. It takes two to make a controversy, and a fight, and the civil service board has no fight to make. We feel that if we are right, our plan or would it work. We will be glad to change it. The board of park directors is composed of men of fine character, they are reasonable and anxious to do the best possible for their department. We believe that the civil service board is also com-

## Most Skin Trouble Readily Overcome

The Active Principle of a Famous Remedy Works Wonders.

Many people have marveled the way S. S. S. overcomes skin troubles. The explanation is the fact that S. S. S. works in the blood and the blood is really a most intricate and extraordinary mass of arteries and veins.

When you come to realize that the skin and the flesh beneath are composed of a network of tiny blood vessels you solve the mystery.

There are wonderful medicinal properties in S. S. S. that follow the course of the blood vessels just as naturally as the most nourishing food element.

It is really a marvelous remedy, contains no injurious or active principle of which it is to stimulate the tissues to healthy growth. It is a most essential element, and the medicinal elements of it are as harmless as the most common food. It is just as good as a mineral drug, but without all the side effects of a mineral drug.

Not one drop of mineral or drug is used in its preparation. Ask for S. S. S. and give it a trial.

Give skillful advice and counsel upon any matter concerning the blood and skin, write to the Medical Department, The Swift Specific Co., 420 Swift Bldg., Atlanta, Ga.

Do not allow some business clerk's sequence over something "just as good" as S. S. S. to lead you into the hands of a mineral drug. Beware of all substitutes. Insist upon S. S. S.

# 1000 FEDERALS, 500 REBELS DIE IN BATTLE

## Killed Sirew Streets of Torreón, Now in Hands of Constitutionalists' Hands

(Continued From Page 1)

Great hills formed like a carpenter's square at either end of which lay the towns of Gomez Palacio and Torreón. There were about 10,000 men in each army.

The federals had fortified the hills with rifle pits, trenches and barbed wire entanglements. The nature of the ground made it difficult to recover the wounded and many of them died of thirst and hunger or lack of attention, where they fell.

**ATTOS IN RESCUE WORK.**  
Automobiles were used in rescue work, but they could not ascend the hillsides.

Some of the fiercest fighting occurred in the hills south of Gomez Palacio and west of Torreón. It was there that the rebels made their last desperate stand and from which they finally fled, followed by a column of Villa's horse. Twice the rebels took two of the hills only to lose them, but all the time the attack was becoming more formidable as the soldiers, attacking from all sides except the west, fighting from house to house, drew the circle closer about the enemy.

It was during the night that the fighting occurred intermittently in the streets over the possession of some favored spot, but the main action was almost continuous.

**TRAINS ARMORED.**  
Both sides used armored trains. These, with big guns mounted, would suddenly appear around an elbow of one of the hills, discharge a broad side and then retire. Early in the attack on Gomez Palacio the trains ventured out at the same time and a lively exchange of shots ensued, like a naval engagement on land.

The federals made use of huge rockets, which were shot to a great height, exploding in the air and letting down a hail of buckshot.

On the fourth day of the fight the intense suffering from heat and thirst was relieved by a rain, thought to have been brought on by the heavy fighting.

During the battle scouts brought word that federal reinforcements from Monterrey were approaching on the east. General Carranza was sent against them and later reported that he had sent them fleeing into the hills. Finally the federals evacuated to the south and the rebels took possession of Torreón.

Great supplies of food, ammunition, artillery and stores of cotton fell into the hands of the victors.

**Villa Started Year Ago With Two Men, Six Horses and \$7**

JUAREZ, Mexico, April 3.—With the taking of Torreón by the rebels last night, the wedge-shaped portion of Mexico, with the point resting on Nogales, Arizona, to a point just west of Eagle Pass, Texas. At Piedras Negras, known also as Ciudad Porfirio Diaz, across the Rio Grande from Eagle Pass, there is a federal garrison, but it does not now constitute a menace to the rebels.

The states now subject to the rebel arms are Chihuahua, Sonora (except the part of Guaymas, most of Coahuila, Durango and Sinaloa. Yesterday's victory is said to make the capture of Saltillo and Monclovia in Coahuila and Monterrey, the key to the state of Nuevo Leon, assured. The main federal force, according to Villa's report to General Carranza, was defeated by the rebels in a night of fighting at Gomez Palacio and Torreón. Carranza, the federal part in the state of Sinaloa, by the release of the veteran rebel army at Torreón, also is in a precarious state.

**CONQUERS VAST TERRITORY.**  
Thus by his successful campaign of the last month, General Francisco Villa has practically reconquered the vast territory of the northern states of Mexico and gained for himself the reputation of being the foremost soldier of the country.

It was but a little over a year ago that he started out from a village near here with two companions, six horses, seven dollars in money and a mule, and he has since then won a reputation as a conqueror of the time were not paid for and Villa's first act on capturing this city three months ago was to repay the liverymen from whom the horses were "borrowed."

General Pablo Gonzalez for months has harassed the federal forces at Monclovia and Monterrey and now that the Torreón army is loosed, strategists here assume that the federals will evacuate these points and attempt to retreat to Tampico the seaport of the state of Tamaulipas. This state is sprinkled with rebel troops all along the line of retreat, which makes it evident that the federal garrisons already are threatened with capture by immensely superior numbers.

A railroad runs from Torreón to the City of Durango which is held by the rebels and the overland journey from that point to Mazatlan lies through a country which is agriculturally rich and well watered.

It would be a pleasant march for an army fresh from the horrors of hunger and thirst in the desert. The railroad, however, is cut at Picardis where the big steel bridge over the river was wrecked six months ago. Troops could be moved over it, however, by the use of shuttle trains.

**JUAREZ EXCITED.**  
Interest here today was divided in speculation as to Villa's future movements and the effect if any, that the rebel triumph would have in Washington.

Never in all its dramatic history since the Mexican revolution of 1910 has there gone so mad with enthusiasm as it did when a foot messenger from military quarters ran through the streets shouting that Torreón had fallen. Drunk with elation, men embraced each other wherever they met. Bells in the 200-year-old Mission of Guadalupe were set ringing louder and faster than they ever have for religious purposes.

At night the town's many barracks to cheer. Then, stirred by a common impulse, their rifles were turned loose in the air. For a time inhabitants of El Paso supposed Juarez was again suffering one of its periodical attacks.

Finely dressed officials, high in the Carranza administration, threw their arms

around unwashed private soldiers in the streets and yelled their delight. The municipal band, hastily routed from their beds, paraded through the streets playing the national hymn and serenaded Carranza until the constitutionalist chief tired of the music. In the gambling halls conducted by Villa's agents for the benefit of the rebel treasury gamblers, game keepers and spectators alike, shouted their joy.

**TOAST GENERAL.**  
Through it all, only one name was heard above all others. It was "Villa." Villa's "Comandante" was freely with the highest officials of the rebel government in a cañon resort and were invited to drink to the glory of the insurgent arms. Virtually the only place open in the Mexican border towns where drinks might be bought, this cabaret was crowded to the doors with civil and military.

dress, for the hour was late, they crowded to the streets and toasts to the conquering general. In the midst of all the rejoicing, American rag time music tinkled from an antiquated piano in the corner, while American women from El Paso's slums danced the one-step with Mexican partners in the middle of the big room.

When the shooting of rifles and pistols in celebration began dozens of federal sympathizers in El Paso awoke and made their way to the streets, thinking by some unexpected stroke of fortune, federal forces were attacking Juarez. But they found the rebels on duty as they were on duty at the bridges that the fall of Torreón was the cause. Rebel soldiers guarding the Mexican end of the structures saw the proceeding and howled taunting insults at the "Huertistas" who had "come to see the federals take Juarez."

By 6 o'clock in the morning, the excitement had died away, and the streets were deserted. Plans are under way for a formal celebration this afternoon over which General Carranza will preside.

**CARRANZA OVERJOYED.**  
JUAREZ, Mexico, April 3.—Belden, a friend of Carranza, described the scene in the Carranza home when the long-awaited news was received.

"General Carranza had been talking with Gomez Palacio off and on for some time and was chatting with members of his family. He seemed very cheerful and later reported that he had sent them fleeing into the hills. Finally the federals evacuated to the south and the rebels took possession of Torreón."

"Well, Muchacho, is it Torreón?" the general smiled as one who knew well what the answer would be.

"Yes, my chief," came the reply.

"Carranza," cried his wife and daughters, then, "have the bugler sound the call of triumph, he ordered, and give me the telephone. I must tell Mrs. Villa."

"This was the first news of her husband's achievements to reach Mrs. Villa. Carranza's next act was to telegraph a message of hearty congratulation to Villa.

"Carranza's friends of the Villa were calling her on the telephone with words of congratulation, while others, despite the hour, called, and wine reserved for the occasion was gratefully drunk to the victorious general, to his loyal lieutenants and those who gave their lives."

**GAIN WIDE CONTROL.**  
The victory gave the rebels undisputed control of the central part of Northern Mexico, 600 miles south from the Rio Grande.

Its full effect cannot be summarized in a moment, but in prestige and power it is said to be incalculable. It is certain to make recruiting a comparatively simple matter and holders of the constitutionalist flag money today predicted a sudden rise in the rate. It was selling at 20 cents to the gold dollar today.

Whether Villa will turn aside to take Monterrey, an important city to the east, or go to the west against Mazatlan, held by the federals, is not known.

**TO CONCENTRATE FORCES.**  
General Carranza was very busy today, but in the afternoon took time to answer questions put to him by reporters.

Asked as to the significance of the capture of Torreón, he replied: "It is of the greatest importance, because it sets us free to concentrate the major portion of our forces around the most central cities of the republic still held by Huerta, with the knowledge that he no longer has a northern army worthy the name."

"Of course I cannot disclose our future military plans, as Huerta, although he has not proven himself a good soldier, would surely take advantage of the information."

"As for recognition of our government by the United States, I have nothing to say, because that does not depend on me. I expect to remain in Juarez several days longer, after which I will establish my headquarters in Chihuahua. We have not definitely decided, but I expect to meet General Villa in that city."

**IN TOUCH WITH DURANGO.**  
"With the capture of Torreón we have communication by rail all the way to Durango and the outskirts of Zacatecas, which is in the very heart of the republic. We also have telegraphic communication as far south as the territory of Tepic, and I receive daily reports from our advance guards in the vicinity of San Potosi."

"On the east I am in daily communication with the forces within a few miles of Tampico and in the neighborhood of Saltillo and Monterrey."

Asked when report on the Benton case might be expected, the chief of the revolution replied that the commission appointed by himself to investigate has not finished its labors and cannot do so for several days.

**TAKE UP BENTON CASE.**  
"The inquiry was postponed because it was necessary that Dr. Lara, one of the commission's surgeons, should be at Chihuahua to assist in caring for the wounded," he said. "Some work has been going forward, however, for we are going into every detail of the case."

**NO NEWS OF DEFEAT.**  
MEXICO CITY, April 3.—The federal capital was ignorant today of the fall of Torreón. None of the newspapers contained any intimation of the federal defeat.

On the contrary, all gave assurances that General Javier de Mouri had won a great victory over the rebels close to Torreón, while the constitutionalists were trying to prevent him and his reinforcing army from effecting a junction with General Velasco, the federal commander at Torreón.

General Velasco is alleged by the newspapers to have repulsed General Villa's rebel army, which, it is said, has retired definitely and is attempting to reorganize in Jimenez.

General Blanquet today to the Associated Press that there was any truth in the report of the fall of Torreón.

As late as noon no paper had published the news and it was doubtful whether any newspapers of the federal capital were aware of the facts.

**REBELS STOP ATTACK.**  
"Not only does General Velasco continue to hold Torreón," said General Blanquet, "but the rebels have stopped their attack. I don't propose to say they will not return to the attack, for probably they will do so. At present the rebels are holding positions in the north of Torreón. They are between General de Mouri, who is at San Pedro, and Torreón. General Mouri's force is in good shape. It has been reinforced by General Joaquin Maas and I expect it to be further strengthened today by General Carlos Garcia Hidalgo."

While there is a large element of the population of the federal capital who are believed to sympathize secretly with the revolution and who would hail with delight news of rebel success, they are kept in doubt regarding events in the north. There is a strict censorship here and also a lack of wire communication. Today being a church holiday, the natives devoted themselves to a celebration in honor of Santa Anita, the patron saint of the city. Offices were closed as well as many business houses. Yesterday was a government holiday and the war office was closed all day in celebration of the anniversary of the battle of Puebla Alta.

**NO OFFICIAL REPORTS.**  
General Blanquet, minister for war, said late last night that no official reports had reached him, although reliable advices had been received that Torreón was safe from capture. He also said that the federal force under General Mouri had defeated the rebels who were trying to cut their advance toward Torreón, that the rebels had been driven back to Sacramento, west of San Pedro, and that the federals were pursuing and killing many of them.

General Blanquet added that the troops under General Joaquin Maas, which left Saltillo on Tuesday, arrived yesterday at San Pedro, 1800 strong.

**CLAIM FEDERAL VICTORY.**  
WASHINGTON, April 3.—The Mexican embassy here today still claims victory for the federal forces at Torreón. Charge Alcala today gave out this statement:

"An official dispatch, signed by the secretary of foreign affairs, Señor Lopez Porillo y Rojas, has just been received at the embassy, giving an account of the capture of Torreón by the rebel forces under Villa at Torreón. General Maas, who left Saltillo several days ago with large reinforcements, has arrived at Torreón. General de Mouri's column has reached San Pedro. The federal government has decided defeat was administered to the rebel forces sent out to oppose his advance. The government also has succeeded in raising a loan of over 50,000,000 pesos, which will naturally assist it in its tireless efforts toward pacification."

**POLICY OF UNITED STATES.**  
WASHINGTON, April 3.—Announcement of the prospective departure of President Wilson's personal representative in Mexico, revived interest today in the future trend of the Washington government's policy toward the southern republic.

While the president has said and

who accompanied Villa to Torreón. He said he would forward details later.

General Carruthers also reported that the Federals abandoned all their dead and wounded and fled from Torreón last night, presiding southward.

Constitutionalist outposts within five miles of Tampico are preparing to attack the city. Rear-Admiral Fletcher reported today, adding that he had private advices that the Federals were preparing to surrender without resistance.

United States tented. Caminetti said today that the question of where the refugees would be deported should they be held to have entered the United States illegally, has not been taken up.

The chains are long enough to allow Miss Street to go through the most difficult figures of the tango at which she is an expert.

## FORMER SOCIAL QUEEN DIES IN HOSPITAL

SAN JOSE, April 2.—Mrs. Eliza Boggs Moore, who forty years ago was the belle of San Jose and the sweetheart of Bar-

ney, died in the county hospital yesterday from a complication of diseases. As Eliza Boggs she was the most beautiful girl in this county and reigned at the elaborate functions at the old Murphy mansion. She was 66 years old.

## NOTED WOMAN SPANS CENTURY OF LIFE

FLORENCE, Italy, April 2.—Mrs. mother of Francesca Alexander, the artist and author, celebrated her one hundredth birthday yesterday. Susan was born in 1814, and was one of Francesca Alexander's works, was edited by him. Recently Mrs. Alexander, through a mistake, destroyed fifty of Susan's letters. Notwithstanding her great age, she not long ago translated "The Golden Book," containing the lives of the less known saints.

## MOTHER JONES SENDS APPEAL TO VILLA

DENVER, April 2.—An appeal which "Mother" Mary Jones smuggled out of the county jail at Walsenburg, where she is held, incommunicado as a military prisoner, was forwarded to General Francisco Villa yesterday by Horace N. Hawkins, attorney for the United Mine Workers of America. The aged strike leader is a personal friend of the Constitutionalist commander.

In her letter, which is addressed "To My Friends and the Public Generally," Mrs. Jones writes: "Let the nation know, and especially let my friend, General Francisco Villa know, that the great United States of America, which is demanding of him that he release the prisoners he has placed incommunicado, in the underground cell, surrounded with severe bars, tin-horn soldiers and other tortures."

## CHINESE WOMAN IS SLAYER OF HUSBAND

ST. LOUIS, Mo., April 2.—Mrs. Quent Ho Yee, a Chinese, voluntarily confessed to the killing yesterday that she had killed her husband, who she said was assistant superintendent of a Sunday school attended by white persons. Although Yee was killed yesterday, two blocks from police headquarters, neither the police nor any resident of the Chinese quarter knew anything of the affair until Mrs. Yee sent the police to her home.

Mrs. Yee said she and her husband quarreled concerning a white woman from whom Yee had received a letter. Her husband attacked her with a hatchet, she said, but she took it away from him and killed him.

Yee was recognized as one of the wealthiest and most influential men in the local Chinatown. He had been in St. Louis forty years and for many years acted as official court interpreter. He was 60 years old and his widow is 4. Mrs. Yee was held by the police pending the coroner's inquest.

## PARROT HEIR TO RICH WOMAN'S FORTUNE

CHICAGO, April 2.—The estate of the late H. H. Hook, in her will, provided yesterday for the parrot, a bird named "Parrot." The parrot got an endorsement of \$500 for its care and is given to Mrs. Anna H. Fogg of Newburyport, Mass. Mrs. Fogg also received \$500 for her trouble.

## MISS JONES, POET AND SPIRITUALIST, DEAD

NEW YORK, April 2.—Miss Amanda Theodora Jones, poet, spiritualist and inventor, died in her Brooklyn home yesterday, aged 79 years. Miss Jones invented the vacuum cooking process and many other devices. During the Civil War she wrote poems dealing with the slavery question. She wrote many articles on spiritualism, including "A Periculous Autobiography." Among her other writings were "Atlantis and Other Poems," "Flowers and a Weed," "Rubbish of Solomon," "A Mother of Pioneers" and "A Daughter of Wall Street."

## KELLEY GUILTY, IS VERDICT OF JURY

SACRAMENTO, April 2.—"General" Charles Kelley of the erstwhile army of the unemployed, was convicted on a charge of vagrancy by a jury at noon yesterday after thirty minutes' deliberation. He will be sentenced Saturday. The closing hours of Kelley's trial before Township Justice Clarkson today were marked by the verbal clashes between Chief Deputy Charles Jones and Kelley and sympathizers. A group of the unemployed army sitting in the courtroom guffawed at Jones during the latter's argument to the jury and Kelley arose from his seat at one stage and disputed a statement of the attorney.

## GIRL VICTIM OF HAZING BRINGS SUIT

LAFAYETTE, Ind., April 2.—As a result of hazing in the girls' dormitory of Purdue University, Mabel Rogers of Indiana yesterday filed suit against seven students who were alleged to have hazing her because seven girls dragged her from her room tore off her clothing, poured kerosene on her back, ducked her in a tub and stuck her with pins in an effort to compel her to kneel to her assailants.

## VANDALIC WORK VANDALIC WORK PIEDMONT HOME

New Residence of Mrs. Cleveland Baker Damaged Many Thousand Dollars.

Affecting entrance into the beautiful new home of Mrs. Cleveland Baker in the Sharon tract, Piedmont, which was to have been completed within two weeks, vandals last night tore out woodwork, smashed plate glass and completely wrecked the inside of the building. No trace to the vandals has been located by the Piedmont police, and no explanation for the damage can be advanced by Charles W. McCall, architect in charge of the construction of the new home. The vandals had torn and gouged the elaborate woodwork of the home, smashed windows and windows and totally demolished the interior finishing of the home which was to have been one of the finest in the city.

The damage will total several thousand dollars, according to the architect. No estimate can be made until a full examination of the damage and destroyed material is made. The vandals evidently went about their work with axes and pickaxes. The damage was discovered this morning when painters and finishers arrived for work. Interior decoration and chiseling was the only work left to perform on the home. To repair the damage, it is believed by the architect will take at least a month.

## STILL OUT 3 CENTS: BUT COMPANY PROFITS

PHILADELPHIA, April 2.—It is a one-act comedy from real Philadelphia life, is the following, written by an upstate sub reporter, who brought his short-hand knowledge into play and faithfully recorded the dialogue. (Novel rights reserved.)

SCENE—Baring street subway-surface car, equipped with new fare registering device into which the passenger drops the nickel.

TIME—Yesterday afternoon. Kindly German woman enters, hands conductor a quarter and serenely walks in and sits down, putting the five nickels in her purse without counting them.

CONDUCTOR—(tapping fare box significantly)—Here you are, madam.

WOMAN—Yes, yes. How nice. (She rises, walks to the door, drops two pennies therein and returns to her seat, addressing herself to the woman beside her.)

What a nice idea. My dear old mother told me always to drop something in a pocket. Isn't it nice they have them on the cars now?

CONDUCTOR—(tapping madam, your fare). WOMAN—I paid my fare when I came in. I gave you a quarter and you gave me the change. You know you did.

CONDUCTOR—I gave you five nickels. You must drop one in the box here.

WOMAN—I gave two cents; that's all I can spare.

CONDUCTOR—But I want your nickel. WOMAN—I paid you when I got on. I gave you a quarter and you gave me the change. You know you did.

Argument continues eight blocks, while second woman makes poorbox contributor to see her mistake.

WOMAN—Here's my nickel. Let me see it. CONDUCTOR—Conductor, that's a shame. You'll have to make up at least three cents yourself. Here, I'll fix it. (Stops farebox as car stops, drops in a nickel and leaves car.)

## GYP'S SUCCESSOR SOUGHT BY JUDGE

**Jurist Seeks Frisky Terrier to  
Replace Dog Accidentally  
Killed by Auto.**

"Wanted—a frisky little terrier dog with a brown spot over his left eye, a black spot in the middle of his back and with a waggly stub tail; a spry little fellow with a cool nose and playful eyes that can take the place of 'Gyp' who has gone to his rest in a creek box under a mound of poppies and buttercups in an East Oakland back yard."

Judge William H. Donahue is searching for such a dog. He insists that it must meet all specifications no matter what its pedigree, be it the longest in dogdom. For there is a vacancy caused by the loss of a cherished pet, to be filled and another "Gyp" must be found at once to alleviate the sadness in the hearts of Mary and Johnnie Foster.

While motoring along the foothill boulevard today, Judge Donahue ran over the terrier. The wheels of the big automobile crushed the life out of the little animal almost instantly. It had been playing with children who were gathered around it on the way to school. The dog ran out at the passing auto but the driver did not know he had run over it until he heard a childish voice call out:

"You've run over our dog and you've killed it!" The judge stopped his car and backed up. There in the roadway lay "Gyp" breathing his last. Tears welled into the eyes of his young mistress.

"See what you've done," reproached Johnnie, fretfully doubling his fists and squaring himself. The judge's heart was touched. He fumbled in his pocket and half drew his purse. When he returned, Judge Donahue learned in his experience that there are things which money won't buy.

"I'm sorry I killed your dog," he said. "But I can't bring it back to life. I'll send you what I'll do. I'll send you out a new dog as good as the old one."

"With a brown spot over his eye?" "And a black spot on his back?" interrupted Johnnie.

"Yes, with all those, and a stub tail too," replied the judge as he stepped into his car.

As he drove away he turned and saw "Gyp" tenderly lifted in childish arms and carried down the road.

### ESCAPES FROM THUGS.

SAN FRANCISCO, April 3.—J. O'Son, 47 Waterville street, was attacked by four thugs who attempted to strangle, early this morning. He was seized by the throat by two of the men and hurled to the ground. The other two men were then able to get through the crowd.

### CLOAK STORE EXPANDS, MAKING SALE NECESSARY

Owing to the rapid growing business the Greater Oakland Cloak Company has found it necessary to annex about 5000 square feet additional floor space taking in the adjoining store, and will immediately proceed to alter the entire front and interior. According to plans now in the hands of the architect, the new building case front is to be built with a wide expanse of show windows and display cases. In addition a marquee is to extend across the entire frontage and the interior of the store is to be rearranged from one end to the other, making this one of the most convenient and attractive specialty stores in Oakland.

During the time this work is under way the business of this firm will be greatly handicapped and practically at a standstill right at the time when

### VANDALS WRECK PLANTS ON FARRELLY GROUNDS

SAN LEANDRO, April 3.—Vandals last night entered Mrs. Henrietta Farrelly's grounds at East Fourteenth street, one of the nice places of San Leandro, and destroyed many plants, pulling up about \$50 worth of choice blooms. The men left their tools lying about.

They also entered the garden of R. H. Farrelly, who owns the property, and the third time gardens in San Leandro have been raided. Thousands of daffodils have been stolen before in one night. Some time ago a local woman and her daughter were seen about 12 o'clock at night coming out of the garden and carrying a basket. They were questioned by the night watchman, who suspected that they had been stealing flowers, but no action was taken.

## CANDIDATES UP FOR TOWN OFFICE

Trustees, Treasurer and Clerk of Emeryville Up for Election.

Rival forces are lining themselves for a spirited election contest in Emeryville on April 10, when three trustees, a town clerk, and a town treasurer will be chosen for the new term. Two of the trustees are running to succeed themselves, these being Mayor W. H. Christie and J. T. Doyle. J. C. Coburn, whose term also expires, will not run for the trusteeship again, being a candidate for town clerk. This is a salaried office.

The administration candidate seeking Coburn's place on the ward of trustees is H. H. Emery, oldest surviving son of former Trustee J. S. Emery, after whom the town of Emeryville was named. The only anti-administration candidate in the field for a trusteeship is T. M. Cowell, a brother-in-law of A. C. C. Krueger.

Coburn is running a tight ship, and has held this office since his appointment by the trustees to succeed F. H. Farr, who resigned. Jenks, who is an expert accountant, is basing his fight on his record while in the office. P. P. Poultier is candidate to succeed himself as town treasurer, and is opposed by E. N. Hansen. Considerable interest is being taken in the town clerk and treasurer's fights. Coburn has for some time lined up with the anti-administration forces, who will urge him for this position.

## Court Hears Evidence Concerning N. Y. Pastor

NEW YORK, April 2.—A court, consisting of a committee of pastors appointed by the New York East Conference for the trial of Rev. Jacob E. Price of the Washington Heights Methodist Episcopal Church, began hearing evidence today. Dr. Price is charged with improper conduct with women of his congregation. He is 50 years old and has served 25 years in church and reform work. His congregation has given him a vote of confidence. J. Vreeland Harrington, a handwriting expert, and the eight women who are Dr. Price's accusers, were ready to testify before the committee today.

## We Have Assembled for the Women of Oakland A Grand Display of French Modeled Easter Hats

Patterned After the Latest Imported Paris Modes—and Priced at

The happiest bit of merchandising news ever given to the women of Oakland is the announcement of our decision to specialize in French Hats at \$7.50, \$10 and \$12.50. This innovation is all the more gladly received coming from a department so widely and so favorably known to the women of Oakland.

With a reputation firmly established in the distinction of its High Grade Millinery—this department has been rapidly attracting a clientele demanding French hats of our own designing at moderate prices. Our present displays at \$7.50, \$10 and \$12.50 is tempt or could carry to successful completion.

It is only such an institution as Kahn's that could bring about this decided innovation in the low pricing of French Hats. Our advantage comes from the fact that we buy in enormous quantities and can sell at lower prices than other millinery departments in Oakland.

We put dependability into the making of our hats just as our expert designers show the keenest sense of style in taking all that is distinctive, new and desirable from our imported French patterns that are now arriving almost daily.

Our Expert Saleswomen will take a keen personal interest in every woman's selection of an individually becoming style at these prices—\$7.50, \$10.00, \$12.50.

### MORNING NEWSPAPERS TO MERGE, IS PLAN

NEW ORLEANS, April 2.—The Times-Democrat and the Picayune, two of the oldest morning newspapers in the United States, will be consolidated, according to announcement here last night. When the consolidation papers will be published as the Times-Picayune.

The Picayune has been published continuously for seventy-eight years. It has been in the hands of the Nicholson family for almost a half century. Until three years ago Thomas C. Barker, a director of the Associated Press, was active manager of the publication.

### DATE FOR GRIFFITH COURT-MARTIAL SET

SEATTLE, Wash., April 2.—The date of the trial by court-martial of Captain J. B. Griffith, disbursing officer of the United States army quartermaster's department here, was set today for April 20, at Fort Lawton.

Brigadier General Ramsay D. Poots, commander of Vancouver Barracks, has been appointed president of the court-martial but the other members have not been named. Captain Griffith has been confined to his quarters since March 13 on a charge that he was short \$8000 in his accounts.

### MAJOR-GENERAL BARRY ARRIVES AT MANILA

WASHINGTON, April 2.—Major General Thomas H. Barry arrived at Manila yesterday. He will assume command of the Philippine division, relieving Major General J. Franklin Bell, who will sail April 15 for the United States by way of Siberia and Europe. General Bell probably will take command of the Central Department and join the troops at Texas City next fall.

## IF BACK HURTS BEGIN ON SALTS

Finish the Kidneys at once when Back-ache or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poison from the blood, then you get back-aches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful after-dinner, lithia-water drink which will regularize your bowels, keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

## Girl Is Musical To Be a Doctor

ESTHER WEINSTOCK.

In the musical work of the Oakland High School, Esther Weinstock, a member of the sophomore class, has shown much enthusiasm. She is a lover of classical music and while a student in grammar school she often took part in the recitals given by her school.

Esther has been selected as one of the numerous scholars receiving aid at entertainments owing to her numerous scholastic activities. She was selected to receive an honor on completing her studies in the Oakland High School.

## Playground Teams Start the Season for Baseball

The playground league baseball games will commence tomorrow morning in all the municipal recreation centers. The juvenile athletes declare that they are now ready to meet their opponents and they are anticipating a successful season.

The boys of the Oakland High School experienced a keen disappointment when Principal C. E. Keyes issued the statement that "There shall be no dual athletic events whatever this year as far as Oakland high is concerned."

The announcement was made at a recent rally held before the Berkeley-Oakland high school baseball game. Principal Keyes gave warning to the effect that if the students created "roughness" during or after the game, he would probably call off all "inner-school" athletics.

Edwin Mease, editor of the Weekly Argonaut, published the following article in regard to athletics in a current issue of the Argonaut:

"Principal Keyes has been over-zealous in this by saying that there shall be no 'dual' athletic events, but that there shall be 'inter-school' athletics in the form of the Stanford and California Track Intercollegiate and the Stanford Tennis Intercollegiate. Therefore the Track and Tennis teams are not affected by the ruling. The only other athletic activity this year is baseball. This is the one activity seriously affected by the ruling. One ball team can only compete with one other team in baseball is a dual activity. The ruling practically means: 'There shall be no baseball games this year.'"

This may not seem very important to many of the student body, as baseball never was very popular in this school. It means a great deal to the members of the ball team, however, who have spent a month at hard work. The ball team realized the importance of the situation for them before the Berkeley-Oakland baseball game, and went to that game and acted as gentlemen and did their best to prevent the "rough-house."

Captain Fowler and Manager MacDonald are both greatly discouraged by this ruling, especially when they felt that victory was theirs and that they should have the honor of leading the first champions of the A. C. A. I., but they realize that some action has to be taken to make the students feel the seriousness of the athletic rule, and accordingly they are conducting themselves by predicting victories for next season.

This is, indeed, a severe lesson for the students, but one that will undoubtedly serve its purpose: the abolishment of "rough-neckism" and ungentlemanly conduct.

## SENIORS PLAN DANCE; HOME CLUB CHOSEN

With the permission of Principal C. E. Keyes, the seniors of the Oakland high school will conduct their semi-annual dance at the Home Club in East Oakland. The members of the class have decided upon the night of the event, which will be one of the final dances of the year. On Friday evening, May 15, the young people will assemble in the spacious ball room, which will be decorated for the occasion. The committee includes: Orville Caldwell (chairman), Fannie Smith, Ethel Brickerhoff, Irma Parrish, Lena Young, George Patterson, Everett Gray, Ray Montague, Robert Macdonald and Walter E. Bruns.

## POPLAR STREET GROUND TO SOON BE OPENED

Although the apparatus has not as yet been installed in Poplar street playground, the Oakland playground commission is planning to open the grounds to the public June 1. The equipment has already arrived here from the east and is ready to be erected. Swings, trapeze and slides will be placed in both the girls' and the boys' divisions of the playground. The rules and regulations which govern all the local playgrounds will be enforced there and it will be under the supervision of skilled workers.

## MOTHER TELLS

How Her Little Girl Was Restored to Health.

Mrs. Chas. Schriber of 139 Hiram St., Brooklyn, N. Y., says: "My little girl was very sick, and I was down after having had the grippe. I was advised to give her Vinol and after the first bottle noticed an improvement. She has taken four bottles and has picked up rapidly, having gained six pounds in three weeks."

The reason Vinol builds up weak, ailing children so quickly is because it contains in a delicious combination the two most world-famed tonics—i.e., the strength creating, body building elements of cod liver oil, with all the useless grease eliminated.

If you have a weak, puny, ailing child, try Vinol on our offer to return your money if it fails to benefit your little one. The Owl Drug Co., Oakland, Calif.

### FASHION DECREES BRONZE FOOTWEAR

Both White and Bronze-Hued Silk Hose Are Smart Accompaniment.

NEW YORK April 3.—Yes, verily if love's women wants to put the best foot forward this season she must see to it that it be shod in bronze. Though the ideal of fashion has clay feet yet they are sure to be bronze coated. Indeed it were almost better to wear a black shoe than a black shoe if you want the stamp of sartorial approval you must to your own surprise be a bronze totter.

One of the loveliest of the new bronze models is dubbed the Oxford. It has the colonial tongue, but surmounting the buckle a neat little strap across it on one side with a button of cut steel or bronze. Of course this model is developed in black, white and gunmetal, of kid, suede, or cloth but it is a shoe of bronze kid that it has reached its acme of perfection.

The elaborate strapping of the tango slipper is shown to advantage in the bronze kid and another pretty effect is a slipper with two straps crossing over the instep and fastening with jeweled buttons on each side. The debutante still clings to the flat heeled pump and sandal but for her more seasoned sisters the higher the French heel the more it is to their sole satisfaction.

Both white and bronze hued silk hose are smart with the bronze footwear and bright green, blue and violet are often worn with impudence and a matching costume. What boots it if your face be bronzed by the summer winds just so your feet are bronzed by the heels of the shoe? And after all what could be more fitting for your petal extremities? Isn't bronze a base metal?

CHIC CHECKS SHOCK. Larger even than the checks of a corporation president are the checks of the chic cuts men being so affected for street check wear. Black and white is the favored combination and in both the huge checks and wide stripes this color contrast develops costumes that are startlingly chic and striking. It is with these touches of light and shade that the black cloth is being topped. With a costume like the black patent kid Oxford or Colonial pump is the really smart finish to a white silk stockinged foot.

BLACK AND WHITE STRIPES. The black and white striped shirt and tie are wonderfully good for the afternoon formal dress and are lovely white silk crepe dress and a paperwhite stock was the favored possession of a dark-haired beauty at a recent Broadway theatrical evening. The skirt was almost draped flaring out dramatically over the hips. The waist, cut all in one piece opened down the front over a sheer veil of tulle while a fitted frill of the tulle piped in red outlined the low neck. A wide crush belt of jet trimmed black moire and a smart black beret hat smoked up on one side to reveal the array of powdered locks completed the ravishing ensemble. In words of the gallery, she certainly looked the candy kid.

MUCHLY RUFFLED CHILDREN. Children seem to be as much ruffled over the new fashions as their elders. Frocks for the five-year-olds have tiers of ruffles about the hip line to give a

deeper rose, while the skirt is cunningly bobbled with a band of the smoking. For little lads the David Copperfield suits, with their white waists collared and cuffed in colored linen to match the three quarter trousers which fasten high up on the waist with large white pearl buttons are most attractive. Sheer pleated white frills around the neck and sleeves in lieu of the collar and cuffs of colored linen are more dressy and turn a sturdy little American boy into a fac simile of the little Dauphin of France.

### EXPRESS COMPANY TO ABROGATE CONTRACTS

NEW YORK April 3.—With a view to abandoning carrying goods by June 30, the United States Express Company has sent notices to railroad companies asking for the abrogation of their contracts. Notices are being sent out because the contracts contain clauses that notice of 30, 40 and 90 days, as the case may be, must be given the railroad of the express company's desire to terminate the contracts.

J. H. Bigger, manager of the company's foreign department, is in Europe winding up the business there. The United States Express has not taken any new business abroad for the last six months.

Let Us All Go to Church.

"Go to Church Sunday" is the slogan for May 17. The Oakland Church Federation has announced the date and the movement is being endorsed generally.

The idea is a splendid one. It makes little difference which church one attends, for all represent a cause as old as human hope and each is in its own way pointing a finger in the right direction for a course of conduct which will bring results not only in this life but in the life to come.

Do not bother yourself with a fear that you may not agree with all the pastor will say. The good man is doing his best to aid in an uplift which means humanity's betterment. Do not listen and go away because his views may differ from your own; he has his lights and you have yours. Take his utterances on the basis of intention and perhaps after you have digested them you will discover that the minister and yourself are not so far apart after all.

Do not excuse yourself by saying you cannot remember all the sermon. The minister came by and engaging her in conversation, asked her if she was "at kirk" Sunday, to which she returned an affirmative answer. But the good old woman had forgotten the text, had forgotten the sermon and was unable to explain anything connected with the service. The parson was mildly shocked and asked her what good it did her to attend service.

"I remember," said the old lady, "I've been to church in the sprinklin'."

"I do," replied the preacher.

"D'ye ken that a' the time I'm puttin' water on it an' the water dries e'en most as fast as I drop it?"

"I do," was the answer.

"But a' the time the linen's gettin' whiter and whiter. D'ye ken the lesson I'm tellin'?"

He did. And it is the same way with church going. We may forget the words of the homily, may not recall the ideas advanced, but all the time the linen is getting whiter and whiter. It is a homely illustration, but in the homely illustration sometimes lies the greatest lesson.

An unemployed army has been arrested in Los Angeles for having camped in the river bed. It is hardly necessary to state that Los Angeles river bed contains no water. Coincident with this comes the story that Kelly's rear guard has been dissipated at Sacramento by showers. Thus we learn that water has its uses outside irrigation and shaving purposes.

The Vallejo Chronicle takes issue with THE TRIBUNE on its game law suggestions and inquires if this paper knows of a sportsman who objects to the one dollar a year license for a fishing privilege. Sure. THE TRIBUNE'S official fisherman, who can catch more fish in one day than the Chronicle man can in a week, objects, because the license is illegal, illegitimate, an imposition on good nature and an intimation of justice, not to mention a violation of the ethics of immortal Isaak, the father of fishing, who paid no tax.

Goethals Canal Zone Governor.

With no ostentatious display, booming of cannon or blare of bands, Colonel Goethals, constructor of the Panama canal, has assumed the governorship of the zone through which it runs, has announced his "cabinet" and is prepared to administer the duties of the office unhampered, being responsible only to the President of the United States and not bound by local restrictions imposed by legislative enactment as was the case in many instances of territorial government under the old rule.

Colonel Goethals' powers are almost despotic with respect to the canal and the country it traverses. But inasmuch as he exercised similar authority with signal ability in building the canal we are warranted in predicting that his administration will be successful, and if he is a despot, will be a benevolent one.

The colonel is a soldier pure and simple. He was appointed the executive of the canal following failure on the part of civilian authority. His orders were to "build the canal." Like the man who delivered the message to Garcia, he asked for no further instruction, but built it. Now he is under orders to administer its affairs, together with that of the zone, and that he will do so to the satisfaction of the government and its people no one doubts.

Without arrogating to himself any of the attributes of greatness and conducting himself modestly, as truly great men do, he has proven himself a great man. He is an ideal soldier, citizen, engineer and executive. He has performed one of the mightiest tasks ever exacted of a man by going straight ahead and doing it. In carrying out the work of building he selected for subordinates men qualified by education and experience, exacting of them the same measure of service demanded of him. They all made good. In choosing his subordinates for the administration of affairs in future he has apparently exercised the same care and under his management there is no doubt he will fulfill all that is expected of him.

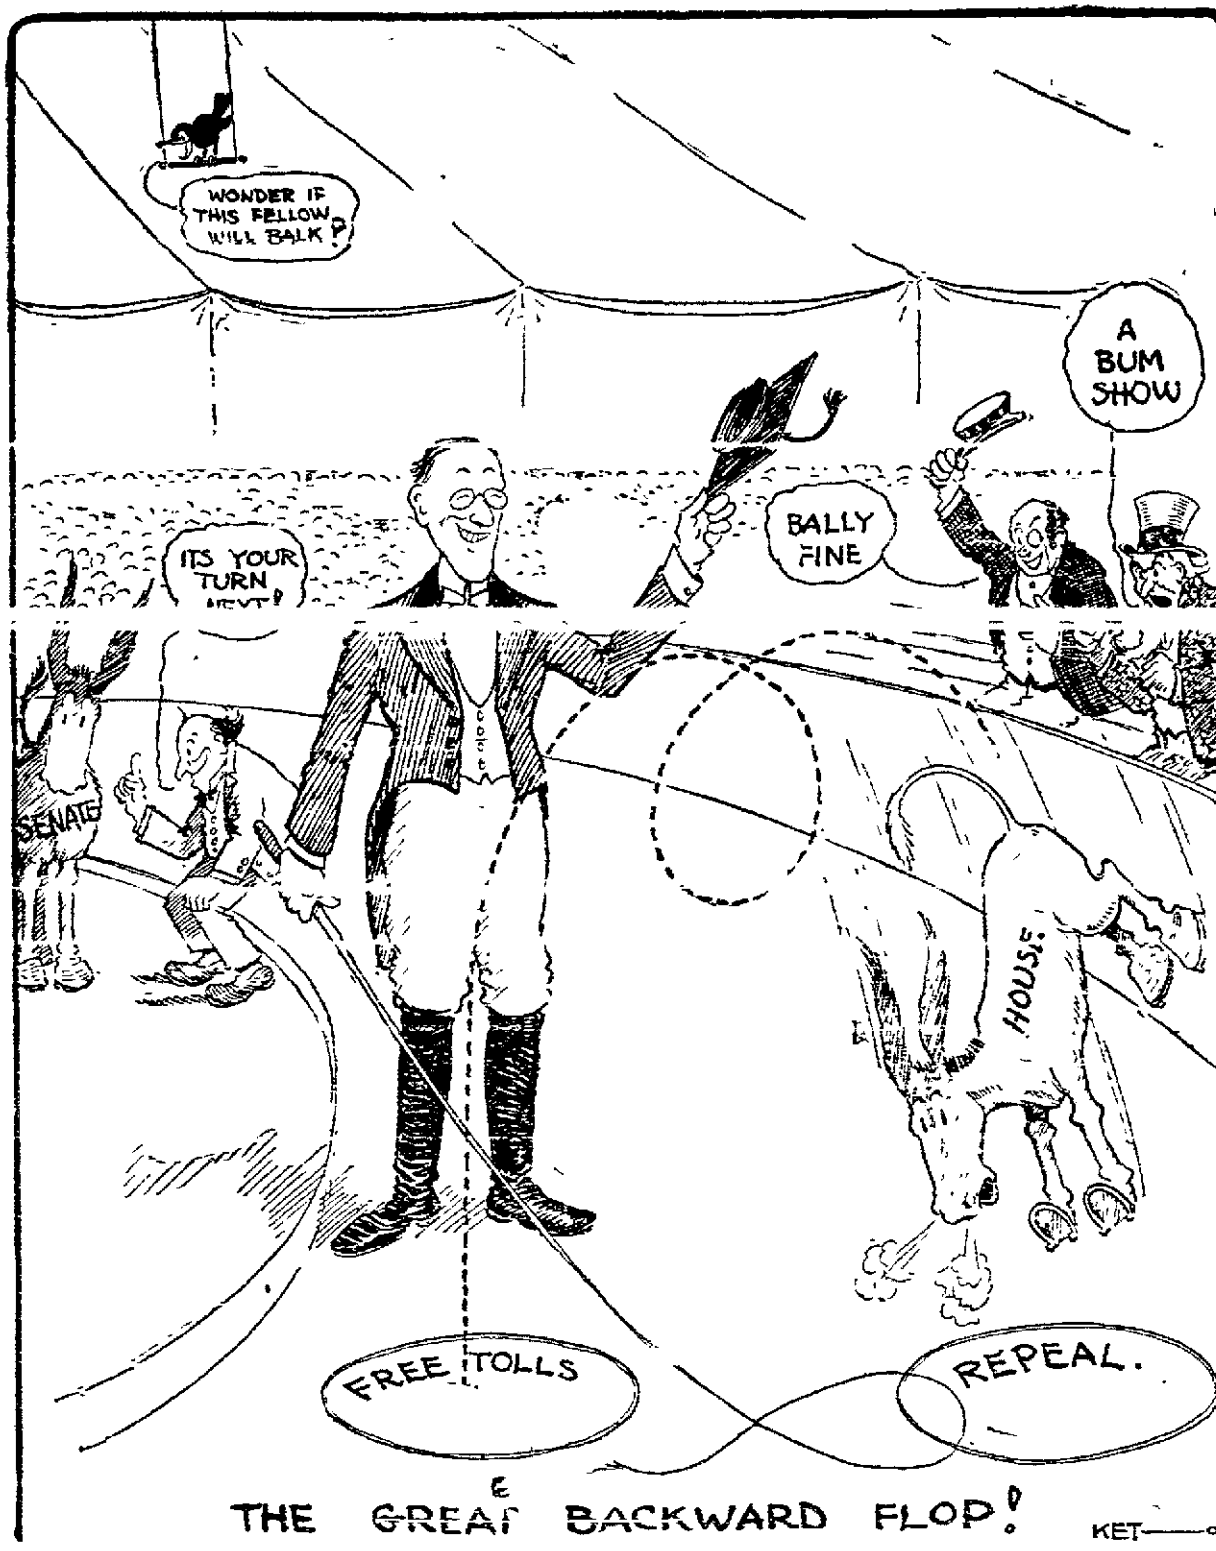

It is noted that Colonel Goethals proposes to keep the canal closed until every detail of its working has been acquired by those who will perform the various functions. His idea is that the great highway shall be in perfect order when he announces his readiness to declare it open for business. This is typical of the man. Goethals is one of the greatest men in the world and President Taft made no mistake when he selected him for this position.

Dispatches from Brazil announce the safety of Colonel Roosevelt. We rejoice with an intensity which passeth understanding as a consequence, for this means that the stars will continue in their courses, the rain continue to fall on the just and the unjust and that seed time and harvest will not cease, because the earth will abide and all the celestial galaxy continue to revolute as heretofore.

Thousands of dollars in gold were taken from a single pocket of the El Dorado mine near Grass Valley. That is the sort of picking which makes all California rejoice and calls for protection.

County's Democratic central committee has resolved that candidates shall buy no drinks for voters. Thus does the party show its honesty.

IN OUR NATIONAL CIRCUS

Grave Questions Should Be Settled.

It is gratifying to note that the Interstate Commerce Commission has announced an early decision in the freight increase asked for by eastern railroads. This matter should be determined as soon as possible.

The business of the country is not what it should be. With a change in policy following Democratic ascendancy doubt has prevailed in financial circles. The new tariff law, the income tax statute and the currency bill have halted trade to a large extent. Loans have been contracted and men with means have refrained from investment until the effect of new legislation could be noted.

Capital is timid. Money hesitates at investment until certain of adequate return. Legislation affects investments. Whenever a new law is enacted financiers "sit tight" until its effect can be observed.

The railroads contend that the high cost of living has reduced incomes; that the tariffs in force are not sufficient to pay expenses and permit legitimate dividends on the money expended. Whether this be true or incorrect, the matter should be settled as speedily as possible after hearing the evidence, because the railroads should be given an opportunity to adjust themselves to whatever condition shall follow the determination.

March of Surgical Science.

Not the least attractive subject for discussion in these days of enlightenment is the progress of surgical science. That which was deemed impossible a quarter of a century ago is now an accepted fact. Operations for the repair and correction of human defects are so successful in numerous instances as to cause little comment, it being taken for granted that good will follow.

For many years surgeons have been seeking to relieve the blind by the transfer of a portion of the eye of an animal. The first experiments made consisted in transferring the cornea of a rabbit. But it was a failure, ascribed by the learned to the difference in vitality of the animal and the human.

Recently in Baltimore a 3-year-old boy, born blind, was operated on, the entire cornea of a pig being transplanted. Surgeons declare the result was a triumph, and that the little fellow will see as well with the grafted optic as though it were his own. Whether the results will be lasting or not time alone can demonstrate, but if this experiment is a real success there is hope for thousands who now sit in darkness. Not all can avail themselves of this sort of treatment, of course, for conditions of the optic nerve must be right as a preliminary, but in many cases sight can be given.

It is hoped the surgeons have achieved a real success in this case, because it means so much for stricken humanity.

CLOTHES AND THE MAN

Sir Philip Warwick left this picture of Oliver Cromwell: "The first time that ever I took notice of him was in the very beginning of the parliament held in November, 1640, when I vainly thought I should have seen him in a better way. We courtiers valued ourselves much upon our good clothes. I came one morning into the house well clad, and perceived a gentleman speaking whom I knew not very ordinarily appeared, for it was a plain cloth suit, which seemed to have been made by an ill country tailor. His hose was plain and not very clean, and I remember a speck or two of blood upon his little hand, which was not much larger than his collar. His hat was without a band."

who wore a black frock coat even in the hottest weather, once made an effort to enforce the wearing of "respectable" dark clothes in the House of Commons. Rhodes would not have it. He said in parliament that if he could not help to enforce it, he would not help at all, and he thought that members would agree with him. They did.

General Villa, like most of his countrymen, has a fancy for large brimmed hats. An American who served for some years as secretary of a Mexican corporation, says that "the Mexican possess a special weakness for hats of the cartwheel type. It is by no means unusual in Mexico to see a man wearing a hat worth \$20 or \$25 while his suit is not worth \$10."

Twenty Years Ago Today

The Council met in regular session and proceeded to elect a president for the ensuing year. There were only two candidates - the dead and only two names were offered - William Dow by Dalton and Anson Barstow by Shell. The roll call resulted as follows: For Dow - Campbell, Dalton, Heltmann, Manuel, Towle, Watkinson - 5. For Barstow - Barstow, Marshall, Shell - 3. Dow was declared elected and the struggle was over.

Attorney Sam Hall is one of the proudest men in Alameda county. He opened the fishing season near Felton and made a rare haul. The lawyer captured ninety trout, among them being a twenty-four-inch fish the largest ever taken out of the waters of the San Lorenzo. Sam had a very exciting time capturing the big fish, the evening battle with the trout lasting twenty minutes. This morning he brought the big fish to the Courthouse and presented it to Judge Hunsaker.

It was a w-arr and disheveled crew that filled the Tabernacle this morning after the Industrial Army had bivouacked for the night. Even the soft side of a plank is not conducive to the successful woeing of Morpheus, and the red eyes and yawning mouths seen on every side showed that the army had not, as a rule, enjoyed its bivouack. Grumbling was in abundance and many minor disputes occurred during the morning. The breakfast rations were a half loaf of dry bread. After breakfast Mrs. Dr. Kalllogg Lane, Mrs. Brown and Mrs. Teets, representing the Ladies' Mission, led a prayer meeting. Tears were noticeable on the faces of many who "Where Is My Wandering Boy Tonight?" was rendered. By the kindness of Anna A. Dennison a cup of coffee was then served to each man. Superintendent Wilder of the railroad notified the men through the Chief of Police that the railroad declined to carry them to Sacramento for less than one cent per mile for each man. The army thereupon debated whether to attempt to seize a train or stay in Oakland another night. The supplies obtained in Oakland were very meagre indeed, and the town will undoubtedly go on the black list as a stopping-place.

There was a preliminary skirmish in the Superior court against the Life and Annuity Association. It was an important move on the part of the creditors to knock out the insolvency proceedings. The Contra Costa Water Company is erecting a flagstaff on which they will display the flag of the weather signal service. This pole will be 35 feet above the building and the flag on it may be read from almost any part of the city.

A correspondent tries to pay us for indicating the onion as an item of diet. We didn't do it. We only objected to it as a food that inspired good sermons. We simply preferred roast beef and apple pie sermons - that's all. But as to the onion itself, that is all right. It has a germ that is particularly opposed to colds and all other ailments.

will tickle the stomach and make the brain leap for joy. Once upon a time, in a fit of seasickness, while crossing the tempest tossed Atlantic, the appetite wholly ruined, we were persuaded to take a dinner of ice cream and Bermuda onion. It was a great success. Don't avoid the onion because it is unpopular in society. Abstain from society and take up with the onion, especially this time of the year, when the air is filled with cold germs. The onion will throttle them before they can harm you.

PATHWAY OF FAME

Appropos of the announcement of the plans for the marriage of Vincent Astor and Miss Helen Dinsmore Huntington on April 30, Mrs. William B. Dinsmore, grandmother of the bride-to-be, told an interesting story of the introduction of young Astor to his future wife. At her home, one of the show places on the Hudson, occupied by the family since 1854, Mrs. Dinsmore said: "When Helen was 5 years old Mrs. Huntington gave a birthday party for her at her town house. She invited Vincent. I remember it very well. He wore a white sailor suit, and he presented Helen with a large bouquet of white roses, almost as large as himself. He was then only 6 years old."

You'll notice three added "comfort-features" in the Crossett "Doctor" Shoe. They give you greatest help in preventing and correcting fallen arches.

(1) The extended heel.

This heel extends on one side underneath your instep and helps to take away the strain from your arch. The bottom of the heel is slightly raised. This tends to "tilt" your arch gradually back into the correct walking position.

(2) The curved "waist."

This "waist" is the part of the shoe which covers your arch. It is made of soft, flexible leather so as to allow perfect freedom to your arch muscles. It is shaped to foot-form so as to hold your arch firmly in the correct position.

(3) The inside sole.

This is scientifically built to form a perfect rest for your foot. Its special shape not only relieves your arch of strain but it also helps to keep the bones of your arch in place.

The Crossett "Doctor" Shoe is the perfect shoe for preventing and correcting arch troubles. Like the other Crossett Shoes - it is famous for its comfort features. It has received the highest approval from some of the leading orthopedic doctors in Massachusetts.

# MUSICAL PROGRAM

Woolsey Street Congregation  
Will Hear Reader and  
Singers of Ability.

BERKELEY, April 3.—One of the most interesting events in church circles about the bay will be a literary and musical recital given at the Woolsey Street Christian Church, Fremont and Woolsey streets, Berkeley, on Friday evening, April 3. The ladies of the church, among whom are many prominent and well-known women about the bay, are presenting to their friends an opportunity to hear publicly Mrs. Sallie O. B. Cave, Misses Muriel and Mildred Barnes and Mr. Nelson McGee. Mrs. Cave is the wife of the pastor, Dr. Robert Lord Cave. She is a reader of rare culture and natural charm, who has been the recipient of many compliments for her skillful presentations at several private occasions of late. Miss Muriel Barnes is one of the promising young musical prodigies of California.

The ladies will also be added to the list of California's notable artists. Miss Mildred Barnes is the accompanist and is also an artist at the piano. Mr. Nelson McGee is one of the well-known tenors of the bay region and has a host of musical friends.

The ladies who arranged the following program are very active in all activities looking to the moral, political and religious interests of the community. The occasion is in behalf of the carpet fund of the church.

General social time with refreshments will conclude the evening. The following is the program:

## ACTRESS KILLS SELF; MAN FOLLOWS SUIT

LOS ANGELES, April 3.—With a newspaper clipping telling of the suicide of a gas of Margaret Gridley, a San Francisco chorus girl, clutched in his hand, the body of Gus Cline, aged 35, was found in his room at 304 1/2 South Los Angeles street this afternoon. The gas was turned on. Apparently he had loved the girl and in seeking death had chosen the same method of self destruction Cline came here a few days ago from San Luis Obispo.

The clipping told how the Gridley girl had taken her life by placing a gas tube in her mouth and lying face downward on the floor.

Cline's body was found lying face downward on the floor with a gas tube in his mouth.

SAN FRANCISCO, April 3.—Margaret Gridley, whose suicide here is believed to have induced that of Gus Cline in Los Angeles yesterday, ended her life with gas early on the morning of March 27th in her apartment at the Hotel Quincy, 7 Quincy place. She was employed in the Scandinavian dance hall.

She had registered at the Quincy, it is said, with L. Johnson, who gave his address as 244 East street.

Cline was not known by the local authorities.

## BICYCLE RACERS GATHER.

NEWARK, N. J., April 3.—The country's best bicycle riders began gathering here today for the opening of the Velodrome cycle racing season Sunday. Among those expected to arrive some time today or tomorrow were Walter Rutt and Champion Frank Kramer, the sprinter, who will meet several times. It will be the first time Rutt has appeared on an outdoor track in America.

## A SPRING TONIC

Old Reliable Hood's Sarsaparilla is Pleasant and Effective.

Your close confinement indoors and heavy living during the winter, and the torpid condition of your system brought about by cold weather, have made your blood impure and weak, so that now eruptions appear on your face and body, you lack vitality, strength and animation, your appetite is poor and you feel all tired out.

From any druggist get Hood's Sarsaparilla. It combines just the roots, barks, herbs and other substances that you need. It purifies and strengthens the blood—makes the rich red blood that you must have to feel well, look well, eat and sleep well.

Hood's Sarsaparilla is not simply a spring medicine—it is an all-the-year-round blood purifier and tonic—but it is the best spring medicine. Remember it has stood the test for forty years. Be sure to get Hood's.

### CITY COUNCIL OVERSIGHT TO OBSERVE DAY

Will Be Given Permission to Leave Work for Friday Worship.

Members of the city council informally agreed today that permission should be granted to all citizens who desire to observe Good Friday a week from today to leave work between the hours of 1 and 3 p. m. to attend services in the various churches. No formal action was taken, but the heads of departments will be notified of the view taken by the commissioners of the matter.

The question was raised of the observance of Good Friday in a letter filed with the city council today from the Good Friday Observance Committee, and signed by Hugh Hogan, president, and J. J. Bryan, secretary. The communication requested a quasi-official observance of the religious day.

The matter was informally discussed by the commissioners. Commissioners John Forrest and W. J. Baucus favored the granting of the request. Mayor Mott was inclined to think that it was outside the functions of municipal government to declare a day of observing a religious ceremony, but it was finally agreed that those who wished to observe the day should be permitted to do so. The letter read in part as follows:

"We earnestly entreat you to pass such resolution as will enable in the minds and hearts of our citizens the feeling that it is their duty to in some special manner observe the solemnity of Good Friday, and further that you order the closing of all public offices of the city government from the hours of 1 and 3 p. m. April 10, thereby permitting and encouraging the city's employees to repair to some place of worship and commemorate in their own way the Passion and Death of the Redeemer of all mankind."

### BOND ELECTION TO BE HELD MAY 5

Oakland to Vote on Issue of \$580,000 for Auditorium and School.

The bond election for the passage of bonds amounting to \$580,000 will be held Tuesday, May 5. The bonds are for the completion of the Municipal Auditorium and for the rebuilding of the Clawson school, "Magnolia" and "Thirty-fourth" schools. The bonds were placed on the ballot about a month ago, and the pupils are divided on half-day sessions among other schools. The issue will carry an item of \$500,000 for the completion of the Municipal Auditorium, the original \$200,000 voted by the people having been exhausted in the contracts for the work already completed.

An item of \$80,000 in the bond issue. The city council today passed a resolution appointing a committee of members of the council to secure and furnish plans and estimates of the cost of the improvements. This is a formal legal preliminary of calling the bond issue, as the date of the election, amount to be voted and improvements involved have already been agreed upon.

The bond issue will be held at 10 a. m. at the Municipal Auditorium. The bonds are for the completion of the Municipal Auditorium, the original \$200,000 voted by the people having been exhausted in the contracts for the work already completed.

### DECKING AUTO INTO WORK IS IMPORTANT

How to Make Your Cars Last Twice as Long. Is Told

(By EDMUND CRINNION.)  
Rudyard Kipling's story of "The Ship That Found Herself" is used as a case in point by Le Roy Kipling, Kipling's cousin of the Harvard University, to prove his assertion that the usage given a modern motor car in the first few weeks of its existence often determines the life of the car.

"If you remember Kipling's story," says Kipling, "the ship was built of steel plates that had been hammered and forced into position and then laid there to rust when it was shipped from the ways she creaked in every joint.

More. Finally, however, each piece was put a little while still before the plates firmly to the brims, and by each part of the ship became flexible and in the very flexibility was its strength. When each part had yielded just a little to the strain, the captain said: 'The ship has found herself.' Until this had happened the old captain had never felt safe nor would he call her a real ship.

"Our new automobile should be treated in much the same way. It should be allowed to 'find itself.' It depends entirely on the first few weeks of its life whether it ever does 'find itself.' If not, its life will be short.

An automobile is made of steel, iron and aluminum. When it leaves the factory it is necessarily stiff, despite the many tests given during the various stages of assembly. The lock was cut from the head of President Lincoln the day after his assassination.

### FRECKLES

Now Is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles. The prescription ointment—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of ointment—double strength—from any drugstore and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength ointment. A few days after use you will see the freckles beginning to disappear. A few days after use you will see the freckles beginning to disappear. A few days after use you will see the freckles beginning to disappear.

## HAYWARD FISHING SEASON OPENS UP

Contradictory Reports Heard  
Regarding Prospects by  
Returning Anglers.

HAYWARD April 3.—The opening of the fishing season in this district has brought in quite a number of contradictory reports in regard to the prospects. The brighter side of the case for fishermen is presented by Trustee Frank

Hoffberg and a number of other Hayward anglers. Hoffberg returned with a six and a half pounder which put a big fight. His line failed to stand the strain when another big fish caught on. Hoffberg has it that fishing is excellent in Alamog Creek near Alvarado.

Other streams according to Constable Manuel Borge of San Leandro are sparkling stocked with fish. Borge formed one of a fishing party which did not meet with the best of luck and this the constable attributes to the fact that last season's continuous rain or dry weather had dried many of the trout through the streams. Borge says he can see little sign of the 14,000 trout he placed in the streams throughout the county two years ago.

## Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent., or nearly one-quarter, die before they reach one year; thirty-seven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium or morphine. They are, in considerable quantities, deadly poisons. In any quantity, they stupify, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever. Genuine Castoria always bears the signature of Chas. H. Fletcher.

## Girls Honored Given Affairs

MISS LEONE SMITH.

HAYWARD April 3.—Miss Leone Smith, the daughter of Mr. and Mrs. C. C. Smith of Castro street, who has been elected to the position of president of the Girls' Honor Society, is one of the most popular of the younger generation in this city. She is a member of the Girls' Honor Society, the L. A. Society, the San Francisco and the L. A. Society. She has been elected to the position of president of the Girls' Honor Society, the L. A. ## FLOWER SHOW SET FOR EARLIER DATE

Maturity Before Usual Time  
Cause of Holding Floral  
Display April 13.

SAN LEANDRO April 3.—Owing to the fact that garden flowers in this part of the state are blooming two weeks earlier than usual, the date for the annual San Leandro flower show has been correspondingly fixed earlier in the season and the show will now be held April 13 and 14 instead of toward the end of the month.

The California Botanical Society states that specimens of wild flowers which will be sent in for the show will be accepted in quantities and quality of the exhibits. Over 500 varieties will be on show. Among the exhibits will be sent in bouquets of flowers regular to the local area. The show will be held at the San Leandro High School. ## HAYWARD STREET WILL BE PAVED

After Long Wait, City Plans to  
Rush Improvement  
Work.

HAYWARD April 3.—After being in a torpid condition for over a year, the street contractor broke up the surface of the city's main thoroughfare, Hay- ward street, which was closed for a period of forty days from the time of commencement.

The Ransome Crumney Company of Oakland has received the contract from the town trustees and will commence the paving within fifteen days. The contract is for the improvement of Hay- ward street from the intersection of Upper street to the intersection of Lower street. The improvement of Upper street has been taken over by the residents in that neighborhood who tired of a "dollar and a half" street, circulated a petition which was signed by 52 per cent of the property owners to have the work done on their own. For different contractors have tackled the problem of paving the street, but the improvement of Upper street has been taken over by the residents in that neighborhood who tired of a "dollar and a half" street, circulated a petition which was signed by 52 per cent of the property owners to have the work done on their own.

## MUST REPORT CASES TO POLICE

Physicians and Hospitals Are  
Ordered to Make Known  
Injuries.

The failure of several physicians and hospitals within the past few weeks to comply with the provisions of the city ordinance that cases of traumatic injury must be immediately reported by telephone to the police, has aroused the indignation of Chief of Police Petersen and Captain of Inspectors Lou F. Agnew, and as a result orders were issued today that cards containing a copy of the provision of the ordinance should be placed in the offices of all physicians and proprietors of hospitals, drug stores and sanitariums in the city of Oakland.

Instructions will be given that these cards will be placed in a prominent place in the offices of hospitals and physicians, and over the telephones, so that no plea of ignorance can be made by those responsible.

## Boy Accused; Man Who Slew Father Is Killed

BLITHEVILLE, Ark., April 3.—T. H. Musgrove, a wealthy planter, was shot to death near Blitheville late yesterday, and tonight John Walker, a 16-year-old youth, whose father Musgrove was charged with having killed fifteen years ago, surrendered to the sheriff here to answer for the killing. Musgrove was acquitted when tried for the killing of the elder Walker. According to the authorities the youth asserts that he shot in self-defense.

## Japanese Cabinet Jobs Go A-Begging

TOKIO, April 3.—Difficulties in constructing a new Japanese cabinet has been encountered by Viscount Keigo Kiyomura, who undertook the task at the request of the emperor.

Many of the statesmen who had been selected for portfolios declined to take the risk of ruining their political future, as there has been much popular disapproval of the selection of Viscount Kiyomura.

report the attempted suicide of Miss Barbara C. Braun, a pretty bookkeeper, 21 years of age, at her home, 1315 Filbert street, which occurred Tuesday night and which was not reported until yesterday to the police, and the failure of Dr. Dudley Smith to report a somewhat similar case at the Hotel Oakland, where the causes of the proposed action by the police.

## Fight Continued on Nominee Daniels

WASHINGTON, April 3.—The fight on Winthrop M. Daniels of New Jersey, President Wilson's nominee for the Interstate Commerce Commission, continued today in executive session of the senate and caused a series of White House conferences. Senator Hughes hurried back from New Jersey to lead the fight for Mr. Daniels. Senators who visited the President found him standing firm for Mr. Daniels. When the executive session recessed last night, those opposed to the nomination claimed enough votes to beat it and among the proposals advanced was one that the President withdraw the nomination. Senators who conferred with Mr. Wilson today found no indication of such a course.

## Changes Attitude on French Participation

LIMOGES, France, April 3.—The Limoges chamber of commerce, which hitherto has been actively opposing official French participation in the Panama-Pacific Exposition, has changed its mind.

It sent today to the minister of commerce and to the foreign office a letter expressing the hope that the French parliament would vote an appropriation for French representation at San Francisco and urging that the question should not be delayed or obscured by the Limoges controversy.

## Two Killed in N. Y. Shooting Affray

NEW YORK, April 3.—A tri-shooting affray on the upper East side last night cost the lives of Joseph C. Gussard, an honor man of the city's police department, and William Horgan, a laborer, who had concealed himself in a friend's home after shooting a grand jury witness who testified against Horgan's son, an alleged gangster.

Charles Moser, a saloonkeeper, the elder Horgan's first victim, is in a hospital with a bullet wound in his shoulder. Horgan, who was in the room, was in turn killed by a police lieutenant.

## Friends Would Save Bryan's Golden Voice

WASHINGTON, April 3.—Letters and packages loaded with advice and "cure" are pouring in on Secretary Bryan daily as a result of the recent publication of his "wag" statement that the secretary's voice had become impaired. Bryan decided today that the joke had gone far enough and formally denied that there is anything wrong with his vocal organs.

## REPORTS LOOTING OF REGISTER BY BURGLARS

John Smith, 322 L street, reported to the police that burglars cut a screen from a rear window of his store and broke into the place. They looted the cash register, taking \$8. The police are investigating.

R. Sweet, 3422 L street, reported the theft of his automobile, valued at \$250.

## Social Settlement Meets for Election

The annual meeting and reception of the Oakland Social Settlement was held this afternoon in London street. The reports of officers were followed by the election of directors for the ensuing term. During the afternoon, a demonstration was given of the regular work of the music pupils—piano and violin—under the direction of Alexander T. Stewart and other teachers of the California Institute of Music.

The new board of directors are Mrs. S. A. Anderson, Mrs. Louis Anderson, Mrs. W. H. Chickering, Mrs. Murrey Johnson, Mrs. C. H. Gorrill, Mrs. Ray S. Carter, Mrs. Albert W. Palmer, Mrs. J. A. Vandegrift, Mrs. Vance McClymonds, Mrs. John E. Farrell, Miss Sarah Horton, Miss Emma Wellman, Miss Mary Alexander, Miss Charlotte Playter, Miss Lucy

## Smallpox Patient Escapes From Home

SAN FRANCISCO, April 3.—Miss M. Jones, a colored woman of 1663 O'Farrell street, who has been isolated with an attack of smallpox, escaped from her home this morning and caused a hurried report to be made to the Board of Health. The police were notified to be on the lookout for her and she had stated that she was going to Woodland. The officers on duty in the Ferry building found no one answering her description.

## BRYAN IS ILL, CANCELS SPEAKING ENGAGEMENT

WASHINGTON, April 3.—Secretary Bryan canceled a speaking engagement to speak tonight in the congressional campaign at Paterson, N. J., and decided to remain at home all day, not coming out even for a cabinet meeting.

## Movements of Col. Roosevelt Mystery

NEW YORK, April 3.—Antonio Flala, who headed a section of the exploring and hunting expedition of Colonel Theodore Roosevelt, has arrived at Manassas city today. Flala and his party descended the river Tapes and recent advice was to the commanding of one of their boats at Biquil Springs.

No recent news has been received from Colonel Roosevelt, who is exploring the Guri river, the dispatches say. He is expected at any time now, as he planned to reach Manassas early in April.

## Bitten by Dog; Dies Of Serum Treatment

TACOMA, Wash., April 3.—Bitten about three weeks ago by his pet dog, which had rabies, was taken to a hospital Wednesday night seriously ill after having taken gradually increasing doses of the Pasteur treatment. County Commissioner H. C. Martin of Puyallup died last night.

The immediate cause of death, as given out by his physician, was paralysis caused by the effect of the serum Martin had been taking in the Pasteur treatment. This paralysis started in his legs and throat Wednesday morning and gradually spread until the heart and vital organs were involved and death ensued. Martin was bitten in the hand while playing

## PEACE IS CALLED 'BUSINESS DEAL'

Sir Max Waechter Knows How to Use Money to Advise.

LONDON, April 3.—The United States of Europe! Sounds sort of fantastical—but it is the well thought out idea of one of England's hardest-headed and most successful business men, and he is boosting it with just as much vigor as if it were a new invention. Sir Max Waechter, a man of 74 now, but as he is as active physically as a good many men a score of years his junior, perhaps he has a fighting chance to witness the realization of his unique ambition after all.

In the past two months Sir Max Waechter and the British government have been engaged in a fierce competition to ascertain which could spend the most money in advertising—Waechter soliciting recruits for the European Union League, and the government striving to convince men of the country to enlist in the British army. Following the example of the war office, Waechter has been running full-page display ads in the leading London and provincial papers, at first \$250 to \$500 an insertion, but now maintaining

a large staff of clerks and sending out huge quantities of literature.

### PEACE IS BUSINESS.

Peace is a business proposition with him, just as war is with the government. Waechter's regular vocation is shipbuilding, but since the first of the year he has been devoting practically all of his time to the organization of his league—which now numbers nearly a thousand serious-minded Britons, many of them prominent in political, commercial and literary life—and to the dissemination of its principles throughout the land. In a nutshell, here are his plans and the reasons for them, as he outlined them today at the league's offices in St. James street.

"If we are to abolish war and the ruinously expensive preparations for war that are now impoverishing Europe, we must abolish the disunion at present existing among the great powers. The antagonistic groups of the six big nations into the Triple Entente (Great Britain, Russia and France), which has produced so much distrust and jealousy and wild competition in armaments, must give way to the Sextuple alliance, and this will naturally lead to a general federation of European countries—the United States of Europe. Under present conditions all attempts to restrict armaments are bound to fail, and in failure armaments can be restricted only if they become unnecessary only when Europe is united.

"Unification should take place on a federal basis, leaving to each component nation the fullest possible measure of individual liberty and enabling it to deal with its own affairs in its own way. A feature of the Federation would be the elimination of the present national

boundaries. All Europe should form one great free-trade market, protected by a proper tariff against the nations without.

"Under the Federation the two-and-a-half billion dollars now spent by Europe annually on its armies and navies would go into the channels of trade and commerce and the five million soldiers and sailors, the strongest and healthiest men of their respective races, would be released to re-enter the field of production and to maintain themselves and others by the work of their hands, instead of being maintained by the rest of the population. In America enterprise is greater and wages are higher, largely because the wealth of the country is not drained away in the mad race for armaments."

Although Sir Max admits that his realization may prove difficult and may require a long time he sees nothing whatever impracticable or impossible in the scheme. During the past six years in which he has been working on the subject he has interviewed a majority of the ruling European monarchs and their leading ministers, and he says that most of them agree with him in principle. He is convinced that the Federation can be brought about if the people are properly educated up to the idea. And this is the specific object of the European Union League—the organization of a tremendous propaganda among the masses of the population. Encouraged by the sympathetic reception given the plan in this country, Sir Max purposes soon to begin

many. This will be followed by a systematic effort to demonstrate to the German people that their anti-English prejudice and suspicion are unfounded. Once the people of those two leading nations of the two hostile European

groups become thoroughly reconciled the way would be paved for an Anglo-German alliance, which really could be developed into a general alliance and union.

When one's not busy taking care of a baby, there's nothing better than a kennel of dogs to occupy one's time. So declares Mrs. Malcolm Whitman, formerly Miss Jennie Crocker, heiress, society leader, and

well known in Oakland as a golf star on the Claremont Club links. Mrs. Whitman will arrive this evening, it is expected, from the East with her husband and infant son. Her dogs preceded her. A special car unloaded them at Hillsborough yesterday, and they are now safely stowed away in their kennels, awaiting their mistress, and their youthful master.

## CURBS DIVORCES IN BAY STATE

Springfield Judge Makes Decree More Difficult in Uncontested Cases.

SPRINGFIELD, April 3.—Divorce mills, as jury-wailed sessions of the Massachusetts superior court are commonly called, will grind much less frequently if the rules of procedure recently laid down by Judge Charles J. Jenney are adopted by other justices. Though the fact is not generally known, divorce procedure in uncontested cases has been simpler in Massachusetts than in Reno, with the difference that the Nevada decree is much more expensive than the Massachusetts article.

Hereafter, should the only requisites for the severing of the matrimonial bonds in Massachusetts be kept in Springfield, the fact that the persons involved have lived apart for a specified time. Men and women who have been unfaithful to their marriage vows are generally willing that the aggrieved party shall procure a divorce, provided the libel is based on the ground of desertion, which in Massachusetts has come to mean merely not living together.

ANNOUNCEMENT DISCONCERTS. When the jury-wailed sessions of the superior court opened in Springfield recently, Judge Jenney quite disconcerted the roomful of lawyers who were on hand with clients waiting to go through the perfunctory process of being divorced, by announcing that he would demand more rather than less evidence than the strict letter of the law requires in granting decrees.

Judge Jenney heard eleven divorce cases that morning, but instead of granting eleven decrees, as had been customarily expected, he granted only seven. In five instances, Judge Jenney declared that in some of the cases a reasonable effort had not been made to locate the whereabouts of the respondent to serve a valid notice of the divorce action. The mere sending of a registered letter to the respondent's last known address, or the delivery of a copy of the divorce papers to the respondent's last known address, was held to be insufficient. In the opinion of Judge Jenney.

REFUSES TO GRANT DECREES. Judge Jenney refused absolutely to grant decrees based on the testimony of only two persons, one of whom was the applicant for the divorce. At the close of the jury-wailed session, Judge Jenney granted a part of the divorce applications insisted upon by the applicant, and denied the balance on the grounds of insufficient evidence. In the past, divorces have been granted on the basis of uncorroborated testimony.

## HANUMUTT SOON RUINS THE HAIR

Makes It Lifeless, Dull, Dry,  
Brittle and Thin.

Girls—if you want plenty of thick, beautiful glossy, silky hair, do by all means get rid of dandruff for it will starve your hair and ruin it if you don't. It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, wet about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all of your dandruff will be gone and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it. You will find that after all brushing and digging of the scalp will stop, and your hair will be silky, lustrous and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

## WOMAN FORCIBLY FED, IS CLAIMED

Home Secretary Makes Report on Condition on May Richardson.

LONDON, April 3.—Home Secretary McKenna informed parliament yesterday that Miss May Richardson, who was sentenced to six months' imprisonment recently for slashing the Rokeby Venus, was being forcibly fed.

According to the suffragette authorities, although Miss Richardson took a new outfit of clothes into prison, urgent messages have been received within a week for three new outfits and a "strong dressing gown." Nobody is allowed to visit her, the suffragettes say, and they suggest she is being ill-treated. Suffragettes set fire to Lisburn Castle, County Antrim, last night. They left a message for Sir Edward Carson, vowing vengeance. Sir Edward having made the announcement several days ago that he was not in favor of the suffragettes. The fire was discovered before serious damage was done.

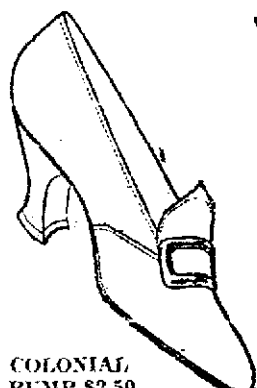

## PASTOR MAKES ERROR IN JUDGING PAIR

AUSTIN, Texas, April 3.—Dr. W. A. Hamlett, pastor of the First Baptist church, unintentionally caused two popular university students considerable embarrassment. A young man and a comely girl walked in for a book. Dr. Hamlett discovered they were a matrimony bent, he thought he knew what to do. "Just a moment till I get a witness," he said to the amazed pair, and rushed off. He returned soon and said: "You may now stand up and join right hands." Then there was a swish of a skirt going through the door and the preacher learned of his mistake.

### DENOUNCES CHICAGO POLICE STATIONS

CHICAGO, April 3.—The police stations of Chicago were severely criticized by Miss Harrat Vittum, head of the Northwestern University, and Captain of Police P. D. O'Brien, at the luncheon of the Young Men's Jewish Charities in the Hotel Sherman.

Our stations are the worst in this country," Miss Vittum asserted. "There are only six of them fit for human habitation."

The condition of women prisoners is especially frightful. They are placed in cells which open on the corridors, through which noisemen are forced to pass, allowing them no privacy. There is no ventilation, no fresh air, and the food is inedible.

No children are supposed to be imprisoned in the police stations, but it often happens that the juvenile delinquents are crowded or quarantined.

If every citizen in Chicago could be arrested and spend one night in a police station, the conditions would be improved the next day.

### WANTS PART

SAN FRANCISCO, April 3.—In a cross complaint filed today, the divorce suit begun by Ralph J. Harding, Mrs. Helen M. Harding charges failure to provide and asks that her husband be restrained from disposing of his community property. This consists of a share in the Gaestone apartments, which Mrs. Harding fears will turn over to his mother, Mrs. Mary J. Triplett. Mrs. Harding also seeks the custody of an adopted child, which her spouse asks be awarded.

## BANKS READY IN THREE MONTHS

### U. S. Regional Institutions Are Soon to Open for Business.

WASHINGTON, April 3.—Although many steps still must be taken before the new federal reserve banking system begins operations, Treasury officials expressed the opinion today that the twelve regional reserve banks would open for business within three months and that the change in the nation's financial machinery would be an accomplished fact within that time.

With selection of reserve centers, the first decisive step toward the establishment of the system. The cities named are Boston, New York, Philadelphia, Richmond, Atlanta, Cleveland, Chicago, St. Louis, Minneapolis, Kansas City, Dallas and San Francisco.

The first work today was official notification to Comptroller of the Currency Williams of the selections, and Williams began the task of notifying every one of the 7580 national and state banks which have applied for membership in the system.

The law, must begin payment of a subscription of 6 per cent of its capital and surplus to the stock of the reserve bank within thirty days after notification.

**TO SELECT DIRECTORS.**

In accordance with the law, as soon as the member banks in a district have subscribed the minimum amount of stock for a reserve bank—\$4,000,000—five will be designated to execute the formal certificate of organization. After its reception here the reserve bank will become a corporation and entitled to begin business. The next step will be the selection of boards of directors for the reserve banks. There will be nine directors for each bank, three to be appointed by the federal reserve board, which itself is yet to be named by President Wilson, and six elected by the member banks in each district.

Although the federal reserve board is to choose three directors in each reserve bank and appoint a reserve agent for each bank, who is to act as its mouthpiece, the organization committee may perfect the organization of a reserve bank for all practical purposes before the reserve bank is appointed.

In the opinion of officials, the banks in payment of their subscription to reserve banks will be accompanied without enlargement of credit or refreshment in loans or discounts.

The law gives a year to the bank for the payment of one-half of their total subscriptions.

### San Francisco Wins; Gets Reserve Bank

WASHINGTON, April 3.—San Francisco has been chosen as the site for a regional reserve bank for the twelfth district which will include the new current law. This was the first decisive step toward the establishment of the new system. The reserve banks will be located in Boston, New York, Philadelphia, Cleveland, Richmond, Va., Atlanta, Chicago, St. Louis, Minneapolis, Kansas City, Dallas, Tex., and San Francisco.

The San Francisco district includes the states of Washington, Idaho, the larger part of Arizona, and the new current law. This was the first decisive step toward the establishment of the new system. The reserve banks will be located in Boston, New York, Philadelphia, Cleveland, Richmond, Va., Atlanta, Chicago, St. Louis, Minneapolis, Kansas City, Dallas, Tex., and San Francisco.

## Be President Should Ponder on This

SAN FRANCISCO, April 3.—Professor Thomas H. Reed, of the University of California, in a speech before the San Francisco Civic Center, said the people of the United States must be brought to realize that efficient government cannot be obtained until administrative positions are filled by experts.

"The time will come," he asserted, "when the ancient belief that John Jones, p. m. m. can do the work required of the President of the United States will be cast aside. People will realize soon that experts will be needed trained in economic matters, that an economical, efficient and trustworthy government can be established, whether municipal or federal."

clude the most important financial centers of the Pacific Coast—three months of consideration to reserve bank organization committee last night and the city has divided the continental United States into twelve banking districts, and selected the new current law. This was the first decisive step toward the establishment of the new system. The reserve banks will be located in Boston, New York, Philadelphia, Cleveland, Richmond, Va., Atlanta, Chicago, St. Louis, Minneapolis, Kansas City, Dallas, Tex., and San Francisco.

### NOTICES GIVEN.

Formal notice of the decision of the federal reserve board in committee designating the cities where reserve banks are to be established under the new currency system and the geographical limits of the districts, was forwarded today to each national bank and eligible institution by Treasury Department officials.

Inclosed with the notices were blank forms of resolutions to be adopted by the boards of directors of the banks, authorizing a subscription to the capital stock of the federal reserve banks in their respective districts.

According to the new banking system, every national banking association shall be required within thirty days after notice from the official committee to subscribe to the capital stock of its reserve bank in a sum equal to 6 per cent of the paid up capital stock and surplus of such bank.

### SCOUT'S WIDOW AWAITS PENSION

Jack Donovan's Stirring Career Is Recalled by Pension Bill.

DENVER, April 3.—Paul with advancing years, afflicted with increasing deafness, Mrs. Margaret C. Donovan, No. 547 East Dakota street, scans eagerly the news dispatches day by day in the hope that the bill to pension the members of surviving widows of the famous Forsyth scouts has become a law.

Her husband, Jack Donovan, who succeeded where his others failed, in a wild perilous ride to save the little band of scouts under command of Major Forsyth, surrounded by an overwhelming force of hostile Indians, died here in 1903.

The battle of Beecher Island began September 11, 1895, and continued for nine days, fifty whites against 1,000 Cheyenne and Arapahoe Indians. Scout Donovan saved his life as few other did, and he kept back the rebel troops that sought to take the remnants of his little band from utter annihilation.

### EVERYBODY DOING IT IN RUSHVILLE

RUSHVILLE, Neb., April 3.—The tango has invaded the sandhills and the cowboys are kicking up the dirt with the dance that has wiggled the world. No more do the sand hills people "shake" to the strains of "See Winner's Favorite Quadrille," instead, they tango to the "Argentine" and "Columbia." The town has become no more a quiet little town, but a whirl of "Dying Cowboy's Lament" and "Bury Me Not On the Lone Prairie," but rather does it have a imagination send forth "Brazilian Dreams" and "Tokio, Niobrara, Ned and Susan." Boss may be quite as graceful in their exhibitions as are some of their city cousins, but it's real tango they dance, just the same.

It all started with the Valentine (Neb.) Woman's Club Valentine is the county seat of Cherry county, the biggest county in the entire "Great States." Valentine is a progressive town and a little town and its Woman's Club recently erected a \$12,000 clubhouse. The individual members of the club agreed to do everything in their power to pay off the mortgage, some gave tea parties, some gave "quizzes," some held contests of different varieties—but Mrs. W. S. Jackson, president of the club, decided to lift that debt through the tango.

To start with Mrs. Jackson didn't know the tango herself, but she refused to be luffed by a slight detail. She made to Omaha, secured the services of a dancing master and was completely "tangoed" within the space of a week. Then she went back to the sand hills, carrying her new accomplishment with her.

Upon her return to Valentine Mrs. Jackson started the feet of the entire town to shuffling, and within a short time the very foundations of the town were being shaken by the dancing wild westerners of both sexes. Everybody in town "got it."

### NURSES ARE ENTERTAINED AT COLLEGE INFIRMARY

The Alameda County Nurses Association held its monthly meeting Wednesday afternoon at the Nurses Home at the California University infirmary at the invitation of Miss Sherman of the infirmary staff. A lecture was given by the Wilbur B. Sawyer on "Bacteriology and Research Work Done at the University" and after the lecture the nurses were shown the different branches of the state board of health at the university.

At the conclusion the nurses were served with refreshments by Miss Sherman. Seventeen nurses were admitted to membership.

### HAS 16 WIVES, SEES EIGHT AT HIS TRIAL

PORT WORTH, Tex., April 3.—Ludwig Arnold, an Arkansas rancher, looked across the federal courtroom yesterday and saw 16 wives of his. He was charged with bigamy and was on trial for violation of the laws of the state.

Week after week from 1905 to 1933, present could testify against him as well as 16 other women in 16 different states. Arnold is being tried for violation of the laws of the state.

## STUDENTS MISS LUNCHMAN FRIEND

Dispenser of "Hot Dogs" and Other Viands Retires After 26 Years.

BOSTON, April 3.—A little man, who walks with a limp and finds much use for his heavy cane, he had held for a quarter of a century the post of dispenser of "hot dogs" and other viands to the students of Harvard University. He is now retiring after 26 years of service.

For Ramsey, who initiated the quick lunch in Harvard square and has for years been the dean of the canteen that followed his success, has at last yielded to the forces of time and will soon retire.

His shop on Massachusetts avenue, where formerly one found a row of hot dogs and a group of impatient burners, is now a quiet place where a few students and a few old men sit and talk.

MADE HIS PILE

But Ramsey didn't retire until he had made his business pay him well for 26 years of devotion to it. For years before these times of hot competition Ramsey was almost the only one in the field, so that now he has his automobile, a house and a comfortable life.

But though the college crowd may now give its four-minute eggs, its sandwiches, breakfast foods, coffee and the like at any one of half a dozen places scattered conveniently through the dormitory region, it will miss the genial flavor of Ramsey's presence.

For Ramsey was a celebrity. In 25 years he had grown into a place in the affection and devotion of the students, and his shop, open at all reasonable hours of day and night, had become a favorite rendezvous for them all.

ALWAYS WAS A FAVORITE.

No so much in these last three years of the doors and can register, perhaps, as in the old times, when one had to go down a flight of perilously steep steps to his tiny place, in the corner of the building, where he sold his wares.

There was an intimacy about the old place in the corner that was lacking in the bright store on the avenue, but still Ramsey has always been a favorite, and his hot dogs and "virgin coffee" have always been famous.

Ramsey's first place, back in the 30's, was right in Harvard square, and it was rather an ambitious lunch place for those days, for it had tables in the back part where one could be served, or if one was in haste he could perch on a stool in front, where the service was swift and efficient.

In those days Ramsey worked behind his own counter, and his wares, for he hadn't yet invented the machine.

## PREFER HOMES AND HUSBANDS TO BALLOT

WASHINGTON, April 3.—John Basil Barnhill, democratic candidate for congressman-at-large from Illinois on an anti-suffragist ticket, says he has received sundry threats from suffragists. In a statement issued to the press Mr. Barnhill says:

"I admit that woman has a grievance, but it is the same grievance that man has, the lack of sufficient wages, that is at the bottom of all our troubles. My platform is to offer to every woman a home and a husband instead of the vote, and I believe that nine-tenths of the women would rather have a home and a husband than to have the vote."

"You ask me how I will give every woman a home and a husband? The answer is easy, but I will not say that the way to bring this status about is so easy. True statesmanship must realize that the one supreme problem of the century is to increase wages till every man desiring a home will be able to marry and maintain a home. Labor organizations and all kinds of organizations which seek to increase wages where now an insufficient wage is paid are helping to solve this problem. Double the wages of the men and then practically every woman can leave industry and take charge of a home."

## PET KITTEN BLOWN AWAY, CAT COMES BACK

The Wyhe family had long mourned Tibbie as dead, which the cat, miraculously, walked up to the front door the other day and mewed for admission.

The cat's fur is ragged and ragged from its long wandering.

## TERMINAL RYS. TO BUILD HOME

Office Structure at Twenty-Second and Grove to Be Modern.

The old buildings of the San Francisco and Terminal Railway at the south-west corner of Twenty-second and Grove streets, are being torn down, to be replaced by a modern three-story office structure of the company operating the Key Route and street car systems. Meanwhile plans and specifications for the building are being completed by Milwan Brothers, architects.

All the present buildings on the site are being wrecked as quickly as possible, to make room for the new building. Construction will start as soon as the site is cleared.

The building will house all the offices, particular attention being given to the lighting of the offices, and very large windows will be provided. The main entrance will be on Grove street, and the waiting room will be on Twenty-second street. The building will be a very easy access from all the offices. ## PARROTS TELL TIME, BUT TELL TOO MUCH

KANSAS CITY, April 4.—Through-out his life George W. Myers, president of the Kansas City Club, has cherished a desire to own a parrot. It was one of the things he looked forward to to amuse him when he began to ease up from strenuous business.

He recently returned with his wife and his daughter, Helen, from a tour of the West Indies and South America. With him he brought two yellow-headed parrots, purchased in Venezuela. The birds have a limited vocabulary. All they can say is "Seven o'clock."

They are brother and sister and were hatched 18 months ago. The life of a parrot is supposed to be 100 years. Abroad ship and on the train from New York the birds took little interest in attempts to teach them new words.

Myers says he supposes they will go down through the ages still repeating "Seven o'clock" despite the time of day.

HOLDS OFFICE 28 YEARS.  
ST. PAUL, Ind., April 1.—John Kanouse, near here, is perhaps the oldest road supervisor either in age or in point of time.

## DIVORCE NOW IN TRI-STATE AIRING

Mrs. Arthur S. Hoyt Faces a New Chapter in Marital Troubles.

NEW YORK, April 3.—With the filing in Brownsville, Texas, of an application for divorce by Arthur Hoyt another chapter has today been added to the marital troubles of the Hoyts, already aired in the courts of three states.

Mr. and Mrs. Hoyt, who was former Mrs. McMahon of New York, were married February 25, 1913. She was twenty-four and he thirty.

Immediately afterward they left for a six weeks' honeymoon trip in Europe. Upon their return from abroad, Mrs. Hoyt states, they went to live at the Hotel Marie Antoinette.

Shortly afterward she left her husband for a few days to take a trip to New York, N. Y., to visit an aunt, her only living relative.

Upon her return to the city she found her husband had left his home and could not be found.

Communication with his office established the fact that he had moved to Jersey.

Mrs. Hoyt did not hear from her husband until the middle of June, when he filed suit for divorce against her in this state, alleging misconduct on her part at the Lenox hotel in New York.

He also stated she had never asked him to return to his home.

At the time a woman detective, employed by her husband to trace her movements, came to her and told her that it was a frame-up and that she would not testify against her.

Shortly after this Mrs. Hoyt dropped her suit and a reconciliation was believed to be in progress.

According to Mrs. Hoyt's statement however he suggested that they both go to Goldfield, Nev., where he could obtain a divorce within twenty-four hours.

If she could do this, he said, he would pay her alimony for eight years and, by that time another man would come along.

Learning from her lawyer that this would be collusion, Mrs. Hoyt refused to be a party to such a scheme.

He then left to go to Goldfield and the suit was dropped.

Now, however, as he started another suit in Texas Mrs. Hoyt says and she has no idea of fighting it.

"I haven't a cent, where he has millions. The only means I have of getting justice is appeal to the newspapers to show the public what my wrongs have been."

WHAT LANGUAGE DO LINGUISTS DREAM IN

WINFIELD, Kan., April 3.—In what language do you dream or think? Suppose that you converse readily in two or more tongues, which language will you use in your dreams?

These questions from the realm of psychology were raised in the first-year French class at Southwestern College, after the professor had pronounced the injunction for the class to "think in French."

The class contains Tien Lan Lin, a Chinese; Jose Perez, a Filipino, and Rosendo Manzano, a Mexican, and the question was referred to these young men.

Each of the three declared that he can now think in English but that it required four or five years to become accustomed to the language.

Other Chinese in the class admitted that they have not been able to do this. In this connection Lin stated that now in his dreams he talked to old acquaintances back in China, but only toward the close of his dreams would it occur to him that he was speaking in English, hence he would be compelled to go back and translate his remarks for his friends.

Perez then stated that he was never bothered with this difficulty, as he never talked to people in his dreams. Then the class went back to the study of French.

SON REPLACES OREGON FATHER AT WEDDING

MARSHFIELD, Ore., April 3.—Falling of the groom to appear for the wedding did not prevent Miss Arlie Belle Clark, a Curry county young woman, from carrying out her part of the matrimonial program.

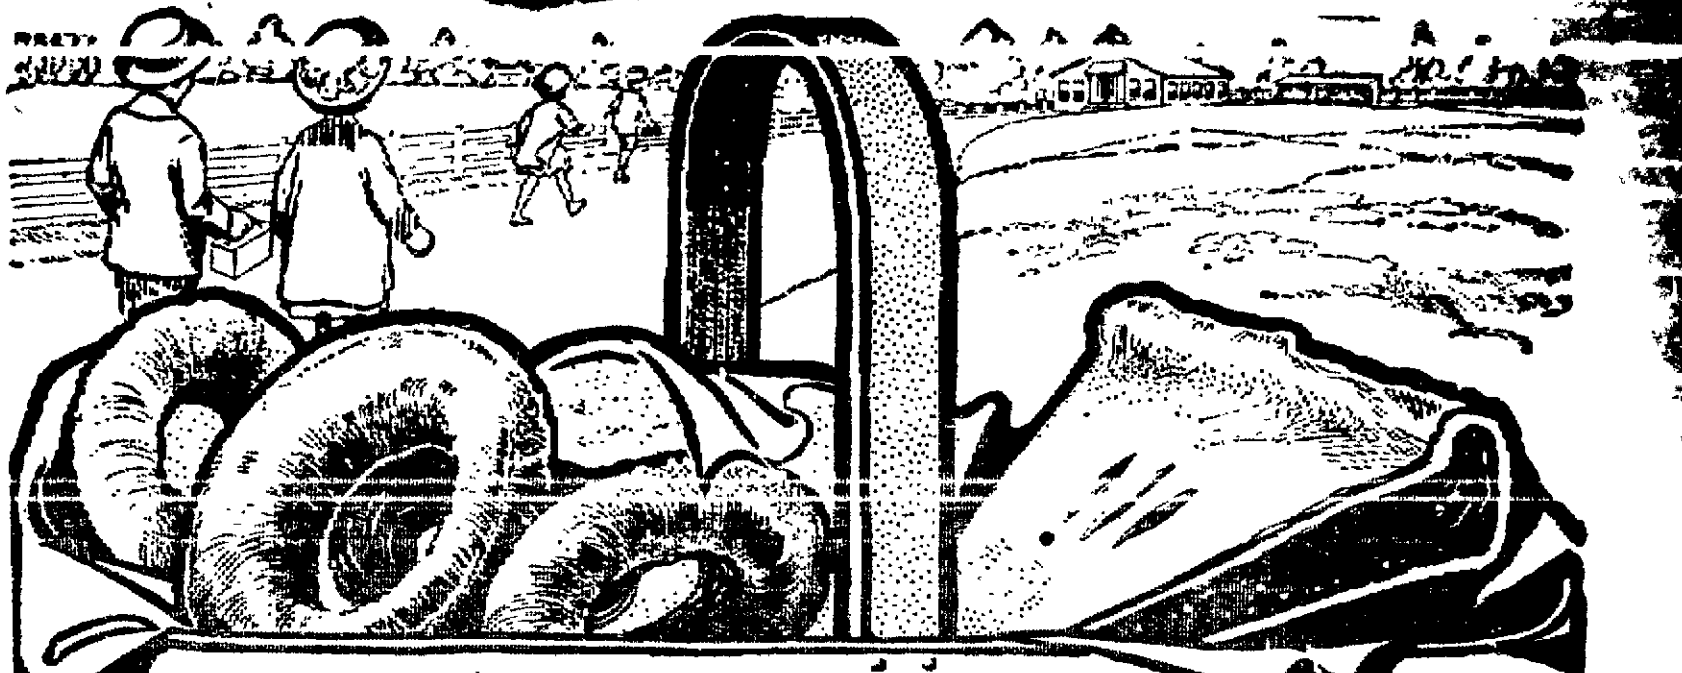

After a schedule she accepted the son of the bride, and was to have been a substitute, and the marriage vows were taken at 10 o'clock.

William Strain is the husband, his father, F. H. Strain, being the delinquent and losing candidate for the hand of Miss Clark.

The failure of the original prospective bridegroom to appear has not been explained.

BURGLAR AN APE.

AKRON, Ohio, April 4.—When Patrolman Frank McGuire, with drawn revolver, crept into the kitchen of the home of Miss Leah Simmons, he saw a "burglar" who had been terrorizing the family.

will be brim full of health builders if the foods it carries are made with

## Cottolene

Pastries, doughnuts and all foods are far more digestible when made with Cottolene. Physicians and expert dieticians have passed the verdict of science in favor of this clean, food-bettering product. Cottolene is pure and wholesome and should be used in all cookery.

The children will adore the cook who makes this:

### COTTOLENE FAIRY GINGERBREAD

2-3 cup Cottolene; 2 1-2 cups sugar; 1-2 cup sweet milk; 3 eggs; 1 teaspoon soda; 1 tablespoon ginger; 7 cups flour (or enough to mix as stiff as can be rolled).  
Cream Cottolene and sugar, add beaten eggs, soda dissolved in sweet milk and ginger. Add flour (as much as can be stirred in). Roll to about one-eighth inch thickness, in a sheet to cover bottom of a large, low baking-pan, score with fancy rolling-pin or springerle stamps, sprinkle with sugar and bake to a very delicate brown. Cut apart and remove quickly by passing knife underneath and stand on edge in a pan to cool.

Order a pail of Cottolene and just try these crisp wafers. Use Cottolene in all cooking, always using one-third less than you would of butter or lard, because Cottolene really goes farther. Also send to us for the valuable FREE Cook Book, HOME HELPS. Do it NOW.

## POLICEMAN LOSES 52 POUNDS: HARD STRUGGLE

CHICAGO, April 3.—All persons who feel they are blessed—or cursed—with an excess of avoirdupois give ear to the tale of John Tipton of the vehicle bureau. In a few months Tipton reduced his weight 52 pounds. In the last week he scaled off twelve pounds. This is what he ate: lamb, dry toast, tea, custard, water. But before you of the over-ovoidous become too enthusiastic and start the diet, listen to what his wife says.

"Yes, he did it. But poor John suffered the tortures of the lost and so did those who had to live with him."

Or this from his friend Sergt. Michael Delaney:

"Why, Tipton's killed himself. That's a fact. When he went out of here half an hour ago he was more than half dead. He's not the genial Jack Tipton of three months ago."

Upton is 5 feet 10 inches and his weight at his heaviest has been as follows on various dates:

July 14, 1913, 262; October 29, 1913, 271; January 20, 1914, 280; February 27, 1914, 294.

Upton went about his weight reducing in order to be able to pass the physical examination for a position in the detective service. He reached his low level of weight and took both the physical and mental examination. He passed both.

"John began to diet about the last of October," said his wife this afternoon. "He went at it sort of easy at first, but after about six weeks he confined his meals to lamb, dry toast, tea and custard and a little water. In about a week he began to suffer. But he stuck to his diet."

## JILTING CHANGED ARMOUR'S CAREER

Girl Left Now Wealthy Packer for Ordinary Horse Doctor.

MILWAUKEE, April 3.—If a girl in New York had not jilted P. D. Armour for a horse doctor many years ago, there might have been no Armour packing house in Milwaukee, nor is it likely that there would have been an Armour plant in Chicago. Instead, the great packer would have been a horse doctor.

P. D. Armour was the son of a New Yorker. He had five brothers and three sisters. When he was nineteen the farm house was crowded and he started to walk to California, taking with him his mother's blessing and a tin of lard.

He left behind a girl who had dared him to go away and make his fortune. It was the time of the gold excitement. He was the only one of his family who had not been jilted.

## FLEES IN SNOW IN ADAM'S GARB

Dancer in Altogether Now Awaiting Results; Jail Sentence or Pneumonia?

NEW YORK, April 3.—After emulating Adam in the conservation of his enormous conventional persons in Belmont and Christopher avenues, Brooklyn, Patsy Haler, otherwise known as "Patsy Haler," is in the Liberty Avenue station today wondering whether he will get pneumonia or a jail sentence. Patsy was captured while doing a song fiasco.

Adjacent dwellings looked on or closed their blinds, as they felt included.

The dancer was thrown a Mother Hubbard by a bird old lady and an empty barrel by a male spectator. But he scorned the proffered raiment and continued to lap rumbly about. Small boys in the interest of the conventions tried to cover him with snow but the dancer was not to be deterred.

FLED FROM BATH.

Patsy had escaped from a nearby Turkish bath when he learned that Detective Connors and Canone were after him with a grand larceny warrant. He did not stop, he did not even hesitate long enough to put on his hat.

The detective were getting weary of their search for Patsy Haler. They found his clothes intact. They even found a shirt that had had Patsy's colored shirt. Patsy went in the pool or in him are the same as candy to others.

think he had dissolved in the torrid atmosphere of the bath.

Poulsenman Helman arrived at the bath as Detectives Connors and Canone concluded their futile search. The policemen went into the court, and one found Patsy Haler. He was dancing about on his toes, spurring at the fence and cavorting like a dervish. He gladly buried himself in the coat of the policeman after one last but futile effort to leap over the fence.

WAS PATSY HYPNOTIST.

Patsy was locked up on a charge of stealing \$100 from Morris Schneidersky, fourteen, of No. 1491 St. Mark's avenue. The boy alleges Patsy hypnotized him into giving up money that he collected for the rent of apartments by Philip Munter of No. 574 St. John's place. The boy also alleges that Patsy hypnotized him into giving up money that he collected for the rent of apartments by Philip Munter of No. 574 St. John's place.

## "WHAT WILL JUST SUIT ME?"

—an Intricate Query, Indeed

You see this style, and another and a dozen others. You note that in materials there is as much variety. Some are wearing silks, crepes and novelty fabrics, others are wearing cloths, checks, etc.

And you see much to admire in them all. And as to colors, why the rainbow is put to blush these days.

So you ask in good faith, "What will just suit me?"

## AND THE ANSWER—

Well, you can never tell till you ask somebody whose business it is to know, and they cannot tell till you "try on" some of the newest garments. Then the mirror, your truest advisor, will help you solve the question.

## Krause Krazy and the Wolverines Win Oakland Loses Heart- Breaker in the South Cack Henley Helped by Former Teammates

SACRAMENTO, April 3.—Pitcher Harry Krause of Portland walked ten men, hit two and made two wild pitches, and with these openings the Sacramento Wolverines won their first game in the season, 7 to 3. Gregory, pitching for Sacramento, allowed nine hits but the third inning was the only frame in which he was effective in the bases. Score:

LOS ANGELES, April 3.—Oakland lost a heart-breaking game here, the first extra inning contest of the season, 7-6. With the score tied in the ninth and a man on third, Malarkey relieved Froug and saved the situation. The Oakland pitcher promptly went to hit in the tenth with what everyone thought was the winning run. Tom Hughes, not to be outdone by Malarkey, started the Angel half of the tenth with a single, and scored when Pop Dillon, crawled from his grave as a pinch hitter and tripled. He was nailed at the plate of Malarkey's choice, but Malarkey got to second on a wild pitch and scored on Moore's drive to center. The score:

It looked as though the Seals were trying to help Cack Henley beat them on the Oakland grounds here yesterday for they gave him no support worth talking about, and the infield was like a sieve. Tozer, the Angel cast-off, pitched a very fair article of ball and was responsible for but one run. Bill Leard, former Oak, responded to the applause which greeted his first appearance at the plate by doubling to the left field fence. The whole contest was very woolly from a fielding standpoint, a mercurial scorist letting both infielders might easily catch.

PAN-AMERICAN POLICY IS PROPOSED

John Barrett Suggests Substitute for the Monroe Doctrine.

PHILADELPHIA, April 3.—John Barrett, director general of the Pan-American Union, said today that the time had come for a "Pan-American policy," as a substitute for the Monroe Doctrine.

"By that," he said, "I mean a policy acceptable to and approved by all the American Republics, a policy belonging to each and all on the same

NEW ADVANCE IN PRICE OF WHEAT

Green Bug Reports Cause of Rise: Opening Prices Vary.

CHICAGO, April 3.—Continued reports of the presence of green bugs in some fields in Oklahoma and Texas, and the fact that the crop is being cut up, with a subsequent rise all over the world, caused a moderate rally in wheat prices today.

Good crops of wheat in Kansas City added later to the firmness here. The close was unsettled, though at the same as last night.

Light receipts were given from the market.

First, second and third grades of wheat, although still developed strength with open grain.

## WADE-SMITH PLAN TO BE ADOPTED

Heads of Department Confer Over Re-organization and Approve New System.

Heads of departments who attended a conference yesterday afternoon to go over the plan of re-organization, in the office of A. T. Kalas, gave the new plan their approval, and the system will be adopted by the city council at the request of the civil service commission, it will probably be in effect by April 10.

The new system was prepared by G. E. Wade of the auditor's office and W. P. Smith, efficiency expert. It involves the shoring of the purchasing agent of much of his power and the removal of all control from the department heads upon City Price Expert L. G. Jordan, the elimination of all emergency claims, and the fixing of responsibility for all expenditures.

## CANDIDATES SEEK SCHOOL OFFICES

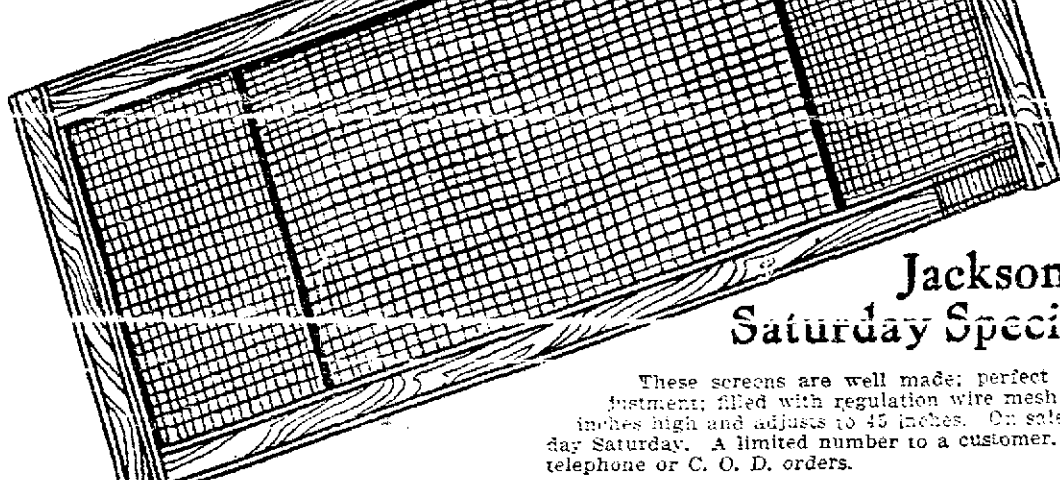

San Lorenzo and Hayward to See Fights for Trusteeships.

HAYWARD, April 3.—San Lorenzo and Hayward are providing most excitement in the three grammar school trustee elections which are taking place in this district today. In San Lorenzo A. T. Kalas, the incumbent, has retired, leaving the vacancy to be contested by Robert P. King, a well-known school board member, and Nick Jorgensen. Both candidates have many supporters and the voting is expected to be heavy.

## TWO GENDARMES COMMIT SUICIDE

## "CARL, IT'S A WINNER!"

"--that Suit You're Wearing.  
Who Made It?"

"One of the best tailors in the country. I'm sure of that, Jim, because I saw him at the exhibition of his work on credit, too."  
"Cherry's are distributors of the best clothes in America, and they sell them at honest prices, and ON CREDIT. Cherry's stores are centrally located, and you ought to go and look them over."  
"You don't say! So you pay for your clothes by the month? I never thought of doing that."  
"I'll show you this way. You know I'm working my way through law school. I've had a tough time looking decent and keeping my head above water the last year. But I discovered lately that there's one store in Oakland that makes it possible for me to do that—and do it decently."  
"The Cherry's, Jim. I'm not going to argue with you to give up your high-priced tailor, but one visit to Cherry's will open your eyes."  
"You can go to their store at 528 15th and get your outfit (and, by the way, their ladies' store is just across the street, at 531). Or to San Francisco, where they have stores at 1008 Market street, also 2400 Mission. Both stores carry Ladies' and Men's clothing. Yes, and a store in Los Angeles at 525 S. Broadway."

## WEATHER GOOD; EGGS PLENTIFUL

Petaluma Poultry Men Have a Big Output; Prices Are Lower.

Petaluma, April 3.—The weather for the past few weeks has been the factor in making the Petaluma egg production nearly 2000 cases more than during the week ending March 19 of last year. The price, compared with the corresponding week of last year, was 24 cents lower.

Chico, April 3.—Next Sunday is "Go to Church" day in this city, every Protestant church having joined in a publicity campaign with the intention of getting out everybody possible on that date.

Oroville, April 3.—Timothy Brown is undoubtedly the person who attempted to destroy the Melbourne Hotel was arrested in the sheriff's office yesterday after Frank Joyce, finger-print expert, and compared the finger prints found on the bottle of coal oil with those of Brown.

Chico, April 3.—Cherries are ripe in Chico. The first box made its appearance yesterday, picked from a local orchard. The cherries are large, red and luscious and broke the record by almost a month for earliness.

## Sailor Struck by Car and Killed

SAN FRANCISCO, April 3.—Struck by a Valencia street car as he was crossing lower Market street, shortly after midnight, Carl Erens a sailor, received injuries from which he died soon after at the Central Emergency Hospital. Automobile H. L. King did his best to stop the car before striking Erens but his brakes failed to work quickly enough and the sailor was struck on the head and rendered unconscious. At the Central Emergency Hospital it was found that his skull was fractured and nothing could be done to save him. King was arrested by Detective Hearn and is held with murder charges.

DEWEY, STRONG & CO. PATENTS

## FOREMAN OF STATE PRINTERS RESIGNS

SACRAMENTO, April 3.—Frank J. Smith, foreman of the state printing office for two years, tendered his resignation, his reason being, he said, "to gratify the arbitrary demands of certain dissatisfied workmen who are displeased with the efficiency system which prevails at the state printing office."  
Although Smith's resignation has been in the hands of State Printer Richardson for several weeks the latter has not yet accepted it. Richardson is inclined to stand by his foreman, who he credits with much of the successful management in that department.  
Behind Smith's offer to retire is also the proposed sale of the State Civil Service Commission to start an efficiency system of its own in the state printing plant.

# A PIANO SALE EXTRAORDINARY

Big Piano House Makes Most Unusual Offer  
--A Regular Bonanza for Musicless Homes  
Sale Starts Today

In order to take advantage of some developments that will prove of utmost importance to the future of Eilers Music House we must immediately convert a large portion of the pianos, player pianos, and baby grands now in the big piano store at 1448 San Pablo avenue into cash, or interest bearing contracts.

We realize that in order to do so quickly the greatest concessions in price must be made. It is, however, not a question now of making profit; it is a question of disposing of the goods. For this reason we commence this morning a sale of the world's best instruments. None are reserved. We shall offer and sell hundreds of the very finest instruments at just what they cost the Nation's largest music house, and many will be sold at even less than cost.

Modern Chickering Baby Grands, Player Pianos and Uprights at drastic price reductions and on easy payments for the first time.

Prices and Pianos Are Truthfully Represented. You Will Find Everything As Advertised  
On the Sales Floors of Eilers

Never heretofore has such an unusual opportunity been presented and there probably will never again be occasion for such an extraordinary offer.

But the situation is urgent. We need money and cash buyers will be given preference, but no reasonable offer of little easy payments will be refused. We shall sell many of our pianos for as little as \$6 a month if necessary.

We have pianos now that we shall sell for as little as \$35, old style instrument, to be sure, but in playable condition. Excellent uprights (used of course) for only \$55 and \$85.

We have elegant \$700 player pianos for which we shall take \$320. We have brand new upright pianos, of dependable and warranted makes, as low as \$135. Pay us for them as is most convenient for you.

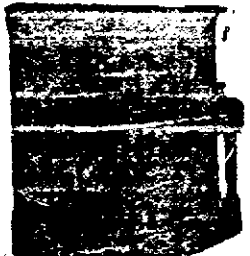

Even the most costly and finest \$900 and \$1000 player pianos and baby grands are correspondingly reduced. There are Chickering's, and Schmers, and Decker, and Kimball's, and the Haddorf, and Smith & Barnes, and the now famous Steger, as well as Knabe, Hobart M. Cable, Ivers & Pond, Lesters, Hallet & Davis, etc., as well as the famous Bungalow player pianos, the Pianola pianos, the player piano de luxe, and the world famous Autopiano. Most of them the very latest, some slightly used.

This sale will prove of particular interest because so many brand new latest design modern player pianos are included. There is also a large number of very elegant Chickering and Sohmer, and Kimball baby grands.

Ask to see a Weber Pianola Piano sold ordinarily for \$950. You can get one now for only \$400.

The modern human touch metal tubing Player Piano makes a piano player of every member of the family. The Player Pianos in this sale are not obsolete, discarded styles, but the very latest and best. Get one now, today. Send for catalog if you cannot call.

Ask to see a \$900 Apollo. You can buy it for \$247. True it's used, but it's an Apollo.

HOME OF THE CHICKERING PIANO

1448 San Pablo Ave. Next to the Kahn Building

Several pianola pianos, Weber, Steck, and a Wheelock Pianola, also an Emerson Angelus and a Crown Combinola, which we have received in part payment for the new and latest improved Autopiano player pianos and the player pianos de luxe are ticketed to be sold now for at least one-third less than actual wholesale value.

See Weber Pianola piano, \$950 style for only \$400. See Emerson Angelus player piano and similar types now only \$235.

An armful of music rolls free with all player pianos. Old style pianos at \$35 will be sold for cash only. We cannot put a contract for so small an amount on the books.

On all other pianos we will accept payments as may best suit the convenience of the purchaser.

**SPECIAL FOR SATURDAY \$2 for \$1**

A special premium of \$1 for every \$1 paid over the required first payment of \$20 will be given to every purchaser today. This applies on all cash paid up to \$125.

Every instrument sold by Eilers Music House is positively and unequivocally warranted by the manufacturers and also by Eilers Music House. No transaction is considered complete which does not mean positive satisfaction to the buyer. You take no risk when dealing with one of the money-back Eilers Music Houses along the Pacific Coast.
